

Kabo 'GO THRU' SKS41210 non-slip ratchet set released

Author: Zane Bendix<info@endeavourtools.com.au>

Kabo has today released its new SKS41210 '

GO THRU' non-slip ratchet set, complementing the already popular SKS32150 set. The new set offers larger non-slip socket sizes up to 26mm, and comes packaged in a quality red metallic case.

Kabo '

GO THRU' sockets offer a revolutionary hollow socket design eliminating the need for deep sockets when working with long bolt shafts.

With the introduction of the SKS41210 set comes another innovative design feature; '

GO THRU' sockets with a non-slip design, allowing the driving / removal of a wide range of nuts & bolts, including those that are up to 70% rounded off.

Each set contains 12 'GO THRU' sockets in sizes from 14mm - 26mm, and a gearless ratchet handle.
