## MERCEDES TIMING CHAIN MASTER RIVET TOOL KIT

- ◆ To rivet the timing chain the following tooling is required from the rivet press tool: basic carrier, mount A1, thrust piece A2, mount B1 and thrust piece B2.
- ◆ When carrying out work on the timing case recess, safeguard this with a clean rag to prevent items dropping down. Parts which have fallen into the timing case recess, must be removed.
- ◆ The riveting tool allows quick, easy and safe re-connection of timing chains
