## Safety Precautions

---

Before using this device, please read the following safety information carefully. For more detailed information, see the appendix "Safety Warnings and Precautions."

- Never collide, throw, or punch this device, and avoid falling, extruding and blending it.
- Do not use this device in exceptionally cold or hot, dusty, damp or dry environments. In places where this device is forbidden or using this device may cause interference or

generate a potential risk, please turn off it.

- Do not use this device while driving.
- At medical sites, please observe the relevant regulations or rules. In areas close to medical equipment, please turn off this product.
- Turn off this device before boarding any airplane.
- Never place this device into apparatus with strong electromagnetic field.
- Do not dismantle this device by yourself. If there is any inquiry, please contact the dealer.
- Do not place the product and accessories in appliances with strong electromagnetic fields.
- Keep this device far away from magnetic devices because its radiations may erase the data stored on the devices.
- Do not use this device in high temperature and other environment with flammable gas, such as gas station.
- Store this device out of the reach of children and do not allow children to use it in unsupervised state.
- Please use the included battery and charger. Otherwise, explosion may happen.
- Adhere to laws and regulations, respect people's privacy and legal rights, during operating this device.

## Precautions On Using This Device

---

The ignition switch should be OFF while plugging or unplugging the diagnostic connector.

## Precautions for ECU Operation

---

- Do not disconnect the inner consumer when the ignition switch is on. High voltage transients may encounter at the moment of disconnecting, which may damage the sensors and the ECU.
- Keep the computer away from magnetic object.
- Do cut off the power supply of ECU system before welding on the vehicle.
- Pay more attention to the ECU and the sensors when the operation is next to them.
- Ground yourself when you disassemble PROM, otherwise, ECU and sensors will be damaged by static electricity.
- Do connect ECU harness connector firmly, otherwise, electronic elements, such as IC inside ECU, will be damaged.

## Safety warnings and cautions

---

Before using and operating the device, please read and observe the following precautions to avoid dangerous or illegal conditions and to ensure the best performance of this device.

## Medical equipment

---

- In the express provision for medical and health care facilities that prohibit the use of wireless equipment, please comply with the provisions of the premises to shut down this device.
- Radio waves generated by this device may affect the normal operation of implantable medical devices or personal medical devices such as pacemakers, implantation of cochlea, hearing

aids, etc. If you are using these medical devices, consult your manufacturer for restrictions on the use of this device.

## Flammable and explosive area

---

- Do not use this device at the gas station (repair station) or near flammable materials or chemicals, and follow all graphic or text instructions. This device may cause an explosion or fire in or around the fuel or chemical storage and transport area or in an explosive area.
- Do not store or transport the equipment and its accessories in flame or flammable liquids, gases or explosive materials in the same box.

## Traffic safety

---

- Do not hold this device while driving and comply with the regulations in your area or country.
- The wireless device may interfere with the aircraft's flight system, please comply with the relevant provisions of the airline, in the ban on the use of wireless equipment, please turn off this device.

## Operating environment

---

- Do not charge or use this device in a dusty, humid, dirty, or near magnetic field to avoid malfunction of the internal circuit of the device.
- Do not use this device during lightning storms to avoid lightning or other damage.
- Turn off this device where it is expressly prohibited to use the wireless device.
- When this device is powered by the power adapter, the choice of the altitude of the product is determined by the matching adapter. For the tropical environment temperature condition, keep the ambient temperature from 32 °F to 104 °F. When this device is powered by the battery, keep the ambient temperature from 14 °F to 104 °F . Do not use the above temperature range, when the ambient temperature is too high or too low, may cause a malfunction.

## Child health

---

- This device and its accessories may contain small parts, please place them in places where children are not accessible.
- Children may unintentionally damage this device and its accessories, or swallow small parts to cause suffocation or other hazards.

## Environmental protection

---

Please comply with local laws and regulations regarding device, batteries and their accessories, and support recovery operations. Do not dispose of device, batteries and their accessories as ordinary household waste.

## Original accessories

---

Use only original accessories provided by the device manufacturer. If you use any non-original

accessories, are likely to affect the performance of this device, in violation of the warranty terms of this device and the country on the communication terminal products, the relevant provisions, and even lead to personal harm.

## Use batteries and chargers

---

- When the charge is complete, disconnect the device from the power outlet device.
- Do not connect the metal conductor to the battery, or contact the end of the battery to avoid short circuiting of the battery, as well as physical damage caused by burnout due to overheating.
- Do not place the battery or device around the heating equipment, such as a microwave oven, oven or radiator.  
**Batteries may explode when overheated.**
- Do not disassemble or modify the battery to prevent the battery from leaking, overheating, igniting or bursting.
- If the battery leaks, do not expose the skin or eyes to the leaked liquid; if it gets on the skin or eyes, rinse immediately with water and go to the hospital for medical treatment.
- If the charger's cable is damaged, do not use it to avoid electric shock or fire.
- Do not throw the battery into the fire, otherwise it will cause the battery to fire and burst.

## Repair and maintenance

---

- Keep this device and its accessories dry. Do not use a microwave oven or other external heating equipment to dry it.
- Do not subject this device and its accessories to strong shock or vibration to avoid damage to the equipment and its accessories or to cause the battery to explode.
- Do not place the unit or its accessories in too high or low temperatures. Doing so may cause device, batteries and chargers to malfunction, fire or explode. When the temperature below 0°C, the battery performance will be limited.
- Do not use potent chemicals, cleaning agents or strong detergent cleaning device or accessories. Before cleaning and maintenance, please shut down and disconnect the charger.
- Do not disassemble device and accessories, otherwise the device and accessories will not be covered by our warranty.
- If the device collides with a hard object or the device is strongly impacted by the outside, the screen is broken, do not touch or attempt to remove the broken part, stop using it immediately and contact the specified service point in time.

## Warranty

---

The warranty is only applicable to users and distributors who purchase CanDo products through normal procedures.

**Within two year from the date of delivery**, CanDo electronic products due to material or process defects caused by warranty, due to abuse, unauthorized changes, for non-product design purposes, not in accordance with the provisions of the manual Operation, etc., resulting in damage to the device or components are not covered by this warranty.

## Waiver statement

---

The above warranty can be substituted for any other form of warranty.

## Order notification

---

Replaceable parts and optional accessories can be ordered directly from the CanDo authorized supplier, please specify when ordering:

- Order quantity
- Serial number
- Part name

## Customer service center

---

If you encounter any problems during the operation, please call the Service Hotline: **1-909-CanDo-11(226-3611)**.

When the device needs repair, please send it to CanDo International, Inc, together with the purchase invoice and problem description. If the device is within the scope of the warranty, CanDo will provide free maintenance; if the device is not in the warranty, CanDo will charge maintenance and return freight.

CanDo International, Inc After-Sales Service Address:  
138 E. Lemon Ave. Monrovia, CA 91016, USA,

## Declaration

---

CanDo reserves the right to change the product design and specifications without notice. Physical appearance and color may be little different from the one shown in the instruction, please take the device as the standard. We have made every effort to make all the description of the book accurate, but still inevitably inappropriate, if in doubt, please contact the dealer or CanDo after-sales service center, the company does not bear any consequences due to misunderstanding.

## I. PRODUCT PROFILE

---

This device is a new Android-based vehicle trouble diagnostic device developed for Internet applications. It inherits from CanDo advanced diagnosing technology and it is characterized by covering wide range of vehicles, featuring powerful function, and providing precise result. Through motorcycle diagnostic OBD connector and variant mobile intelligent terminals, it achieves motorcycle trouble diagnosis for full car model and full system vehicle.

Meanwhile, taking advantage of mobile Internet, this device integrates all product resources and service of CanDo.

## II. FEATURES

---

- **Diagnostic function**  
Diagnose the electronic control system of prevailing vehicle models covering Asian, European, American. Diagnosis functions include: Read DTCS, Clear DTCS, Read data stream, Special functions etc.  
Specially designed for Android platform with clear and user-friendly interface;
- **Moto IMMO**  
Enter the Moto IMMO programming function for programming.
- **Personal center**  
User information and the device's configuration information.
- **Data Management**  
Including file management, data playback, uninstall vehicle models, workshop, picture reviewer.
- **Support**  
Equipped with powerful database. Large number of videos help users to operate device easily.
- **Remote Diag**  
Achieve remote assistance by this function.
- **Upgrade**  
Built-in WIFI mode can realize application downloading and diagnostic function by one key upgrade.
- **settings**  
Set VCI Info, Language, Unit, Network Test, Clear cache, Settings and About etc.

## III. KNOWLEDGE OF THIS DEVICE

---

- **The whole set**  
This device is composed of the tablet computer, main test cable and kinds of cables.
- **The tablet computer**

#### IV. TECHNICAL PARAMETERS

---

- Operation system: Android 5.1.1
- CPU: Exynos4418 Quad Core ARM Cortex A9 1.4GHz
- Battery: 3700mA, rechargeable polymer lithium battery
- Extension memory card: 32G Micro SD (TF) card supported
- Storage capacity: 32GB
- LCD: 8.0 inch
- LCD resolution: 1280\*800
- Touch screen: Capacitive touch screen
- Camera: 5 mega rear-view camera
- Wi-Fi: supported
- Working temperature: -10°C ~ 55°C (14°F ~ 131°F)
- Storage temperature: -20°C ~ 70°C (-4°F ~ 158°F)
- Weight: about 1.0 Kg
- Dimension: 254mm\*174\*mm\*35mm

#### V. ACCESSORIES (Standard Configuration)

---

- Main test cable

● **Other Connectors**

Other connectors are used to connect the diagnosis socket of non OBD II vehicles. To choose the connector according to the vehicle brand and models. Common connectors are as below:

 M001A Main Cable	 M002 Power Cable	 M002A GND	 M003A Multi functional jumper	 M004 APRILIA CFMOTO DUCATI HONDA KTM PIAGGIO VESPA YAMAHA
 M005 KAWASAKI	 M006 KAWASAKI	 M012A SUZUKI	 M015A HONDA HONDA MONTESA	 M018A YAMAHA
 M019 KTM	 M021A AEON BENELLI BENELLI DSK ZONGSHEN	 M026 SYM	 M027 KYMCO KAWASAKI	 M034 HARLEY-DAVIDSON
 M037 DUCATI	 M040 BMW	 M041 EUROV	 M042 INDIAN VICTORY	 M043 BRP

The above is a list of all motorcycle connectors supported by this product. The number of standard connectors varies with different product models, please refer to the product packing list for details! The company has the final interpretation right.

● **Others accessories**

DC Power Adapter (Output DC 12V/2A), To power up the tablet via connecting with outside power Supply.

## VI. CHARGE THIS DEVICE

1. Connect the included USB cable with charger.
2. Plug the charger into AC outlet.
3. When it connects to charger, battery logo indicates  , it indicates that the battery is in charging.
4. When battery logo changes into  , it indicates that the battery is fully charged.
5. Unplug USB cable on the charger from this device. 

## VII. USING BATTERY

---

- If the battery keeps unused for a long time or battery is completely discharged, it is normal if it cannot be turned on while being charged. Please charge it for a period and then turn it on.
- Using data service will cause more power consumption and shorten the stand by time.
- The charging time of battery varies with temperature condition and battery consumption status.
- While this device has low battery, a beep will sound. If it is very low, this device will be switched off automatically.

Note: Do one of the followings to save power:

- When this device keeps unattended, press POWER key to turn off the LCD.
- Shorten the standby time: Enter main menu, choose *Settings* > *DEVICE* > *Display* > *Sleep* to select a shorter standby time.
- Decrease the brightness of LCD display: Enter main menu, choose "Settings" > "DEVICE" > "Display" > "Brightness", and then drag the slider to adjust it.
- Change "Live wallpaper" into "Gallery".
- Set Bluetooth off: Enter main menu, choose "Settings" > "Bluetooth", and then toggle the switch to OFF.
- Press VOLUME key to decrease the volume.

## VIII. POWER ON/POWER OFF THIS DEVICE

---

- Power on  
Press and hold Power button for three seconds to turn on this device.
- Power off  
Press and hold Power button for three seconds to turn off this device.

## IX. ABOUT DESKTOP

---

ICON	FUNCTION	DESCRIPTION
	Print screen	Make a quick screenshot and save it to gallery
	Back button	Go back to previous interface or exit program.

Home button

Return to the desktop

Touch screen menu button

Select desired item

DP button

Enter diagnose and program interface

VCI button

Enter system settings

## X. CUSTOMIZE YOUR DESKTOP

---

- Add items on the desktop  
On the main menu, hold and press the desired item, the system will automatically enter the desktop and place the icon into the circle. Hint: If many applications occupy the desktop, hold and press the desired one to move it to other extension desktop.
- Move items on the desktop  
Hold and press the item to be moved. After a movable circle appears on the screen, drag it to the target location.
- Delete items on the desktop  
Hold and press the desired item, "X Delete" appears in the upper middle of the screen. Drag the item to "X Delete". When the item and icon turn red and then release it.
- Change your wallpaper  
Hold and press a blank area on the desktop, a pop-up wallpaper will be shown on the screen. Choose desired wallpaper. Click upper left corner "√ to set wallpaper".
- Create a folder on the desktop  
Drag one icon to another icon, the system will create a folder. Input the folder name.

## XI. ON USING TOUCH SCREEN

---

- Tap: Tap the corresponding item with your finger to confirm the selection or start the application.
- Long press: Long press the icon or input field to open the operation option menu of the current interface.
- Slide: Slide your finger horizontally or vertically on the screen.
- Drag: Long press the selected item with your finger, and then drag the item to any position on the screen.

## XII. AUTO-ROTATE THE SCREEN

---

To perform such operations as browsing webpage, viewing images etc., rotate this device, the screen will automatically change the display direction. To disable this function, click "Settings" and click "display" to enter. Unselect the option "Auto-rotate the screen".

## XIII. LOCK&UNLOCK

---

- **Lock the screen**

- When the device is ON, press POWER key to lock the screen.
- The system will lock the screen automatically after this device remains idle for a long time.

- **Unlock the screen**

Press POWER key to activate the screen and then drag the lock to "Unlock position."

## XIV. NOTIFICATION BAR

---

The notice bar is used to display some activities, messages to remind and inform users.

- **Turn on the notification panel**

- When a new notification icon appears on the status bar, slide the status bar downwards to open it.
- In the notification panel, click the desired notification item to open it.

- **Turn off the notification panel**

When the notification panel is opened, click on the blank space of the screen and the notification panel will automatically retract.

## XV. INPUT METHOD

---

Set input method

Enter main menu and then select "Settings"-> "Language and keyboard" to Choose desired input method.

The default input method support powerful word stock engine, Intelligent Sogou input and multiple keyboard mode. Android keyboard and Google input method and make input easier. To start text input mode, please click any text input entry.

## XVI. HOW TO SET AS AIRPLANE MODE

---

According to the regulations of some countries or areas, PC device must be turned off before boarding on the airplane.

The way to disable functions of this device is to set it as airplane mode. In this mode, all wireless radio waves will be off, including mobile network, Bluetooth and Wi-Fi.

Do one of the followings to enable or disable airplane mode:

Press POWER key and choose "Airplane mode" from the pop-up option menu.

Access the main menu, and choose "Settings" > "Wi-Fi" > "More..." >"Airplane mode".

## I. EMAIL

---

The function allows you to send and receive email. You can add common web email service provider in this device. For example: Yahoo!®, Sohu, 163 and external device or IMAP email account of other manufacturers.

- **Add an email account**

Note: Before sending or receiving email, you have to set up an email account. In addition, this function requires a stable network connection.

1. On the desktop, tap  to enter main menu screen, and then tap .
2. Input email address, tap "next step" or "manual setup"
3. Tap the desired account type (here take this device as example) to enter the incoming settings screen, tap "Next".
4. Configure some sending settings, and tap "Next" to enter frequency settings.
5. After setting, tap "Next" and the system will prompt account setup has been finished.
6. Tap "Next" to enter email main menu.

- **Delete an email account**

1. Enter main menu screen, and tap to enter account screen.
2. Tap the desired account, and then tap to choose "Settings".
3. Tap the account to be deleted to enter, and then scroll the screen until "Remove account" appears, tap it to delete.

- **Send an email**

1. Enter main menu screen, and tap to enter account screen.
2. Tap the desired email account.
3. Tap to enter new mail writing interface.
4. Input the receiver address in to field.
5. Input a title in Subject column.
6. Enter the content in Compose email area.
7. After inputting, tap, you can perform any one of the followings: attach file, add CC/BCC, save draft, discard and setting.
8. Tap to send email.

- **View email**

1. Enter main menu screen, and tap to enter account screen.
2. Tap the desired email account.
3. Tap to refresh the inbox.
4. Tap the desired one to read.

## II. Wi-Fi

---

This function enables you to enjoy surfing on the Internet and downloading data from the Internet via Wi-Fi.

- **Set Wi-Fi on**

- Enter main menu screen, choose "Settings" > Wi-Fi
- When the Wi-Fi sign appears blue, it indicates Wi-Fi has been activated already.

Note: To prolong the battery life, please switch Wi-Fi off when it keeps unattended.

- **Connect to Wi-Fi**

Start Wi-Fi, if this device is within range of Wi-Fi, it can automatically detect and connect to current Wi-Fi, select desired network and input password, then you can surf the internet by Wi-Fi.

### III. BROWSER

---

You can use any APP based on browse website and network.

- **Open the browser**

Enter main menu screen, tap to the browser. You can choose the desired homepage or input the website address to browse.

- Tap to input or edit the web link

- Web page display area
- Tap  to open bookmarks, view history and saved web pages.

- **Browser webpage**

- Open the browser.
- Input the web address, and tap "Go" on the keyboard to visit the website.

Tips: Alternatively, you can also tap, and then choose "Bookmarks/History" from the pull-down list to choose the web link you want to access.

- After a webpage is open, slide the screen with the tip of your finger to view other hidden content.

- **Zoom in/Zoom out a page**

- **Save favorite webpage to bookmark**

- While browsing a webpage, tap , and choose "Save to bookmarks".
- Edit a label for the bookmark.

Tap "OK" to confirm and save it.

- **Open multiple pages**

The browser allows you to open multiple web pages and you can toggle between these pages.

- While browsing a webpage, tap  and open new window.
- Another web page will be displayed in the new window.

- **Customize internet settings**

While browsing a webpage, choose "Settings", you can view or change browser settings, privacy & security setting and advanced setting etc.

## IV. CAMERA

---

- **Open and close camera**

Enter main menu screen, tap camera. In shoot mode, tap back button to exit the camera.

- **Take a photo**

1. Open camera, select whether to remember the shoot spot of the photo? Tap the next step.
2. In shoot mode, aim the camera lens at the object you want to photograph and adjust it as desired.
3. Tap  to take a photo.

- **View a photo**

1. After a picture is taken, the picture will be stored automatically. Swipe the screen leftwards to view the photo.
2. While browsing a picture, you can do any one of the followings:
  - Tap to delete the picture.
  - Share, tap to send this picture to your friend or upload it online.
  - Edit, beautify the photo, and view the detailed information of the photo.
  - Tap the back button on photo interface to return to the shoot mode.
3. Swipe the screen rightwards or leftwards to view the next/previous picture.

- **Record a video**

1. Open the camera, and swipe the screen rightwards to display button , and switch to video mode.
2. Aim the camera lens at the object you want to photograph and adjust it as desired.
3. Tap  to start recording.
4. Tap  to stop recording.

- **View a video**

1. After a video is recorded, the video will be stored automatically. Swipe the screen leftwards to view the video.
2. The following operations can be done:
  - Delete, delete the video.
  - Share, send this video file to your friend or upload it online.
  - Tap to back button on the video interface to return to the view state.

- When the video is playing, swipe the screen leftwards and rightwards to control the speed of video playing, and tap  to stop video playing, and tap  to start video playing.

- **Customize camera settings**

In camera mode:

- Tap  to enter camera setting screen;
- Tap  to set camera sudoku mode;
- Tap  to turn on /off flash mode;
- Tap  to set timer of selfie, 3s or 10s

- **Customize video camera settings**

In video mode:

- Tap  to enter video setting screen;
- Tap  to turn on/off flash light;
- Tap  to turn on/off sudoku mode

## V. GALLERY

---

This option is used to manage pictures and video files.

- **Open gallery**

Enter main menu screen, tap "Gallery" to access it. The system searches images and videos in this device and SD card automatically, and categorizes it into corresponding folders.

- **View a photo**

- Enter main menu screen, tap "Gallery".
- Tap the picture folder you want to view.
- Tap the desired image to browse.
- Swipe the screen rightwards or leftwards to view the next/previous picture.

## VI. MUSIC

---

Music files are stored into 4 categories: Artists, Albums, Songs and Playlist. Tap the desired music to display music.

Tips: While playing, tap back button to switch to other applications and the player will be running in background. Open the status bar and choose the audio file to return to the player screen.

## VII. CALCULATOR

---

You can use calculator to operate algorithm of plus, subtract, multiply and divide, and function

operation of sin, cos, tan and log.

## VIII. CALENDAR

---

This function lets you view calendar or create to-do events. Enter main menu screen, tap "Calendar". Swipe up and down to switch to month; Tap someday, the followings can be done. Tap

to refresh, search, and hide control and setting.

## IX. ALARMS

---

- **Add an alarm**

1. Enter main menu, and tap "Alarm".
2. Tap  to add alarms.
3. Set the detailed information of the alarm.
4. Tap  to pack up the alarm to store the setting.

- **Delete an alarm**

1. Enter main menu, and tap "Alarm".
2. Tap the desired alarm.
3. Tap  to delete it.

Tips: After the alarm is deleted, you can choose to cancel delete alarm on the right side from the option menu.

- **Customize your alarm**

1. Enter main menu, and tap "Alarm".
2. Tap menu button, and then choose "Settings".
3. Alarm volume: Set the volume of alarms.
4. Set the duration of alarm.
5. Set the duration the alarm snooze next time.
6. Volume buttons: set what these buttons function when pressed during an alarm.
7. Set default ringtone: choose the alarm ringtone.

- **Countdown setting**

1. Enter the main menu to tap  to choose count down alarm;

3. Tap  to add count down alarm, and tap  to delete alarm;
4. Tap  to start count down, and tap  to stop count down;

Notice: after the countdown ends, the device will ring alarm sound.

- **Second clock setting**

1. Enter the main menu to tap  to choose second clock;
2. Tap  to start second and clock, and tap  to stop second clock;
3. Tap  to reset second time;
4. Tap  on the right side to display the smaller unit counter of second clock;

## X. ES FILEEXPLORER

---

Open ES file viewer, and enter main menu. You can manage SD card, browse by category and browse all music, picture, video, document application, package, favorites, installation package, management recommended through catalogue.

## XI. DISPLAY

---

- **Brightness**

1. Enter main menu screen, tap "Settings" > "Display".
2. Tap "Brightness" to enter.
3. Drag the slider leftward to lower the screen brightness. Drag the slider rightward to increase the screen brightness.

- **Auto-rotate the screen**

1. Enter main menu screen, tap "Settings" > "Display".
2. When setting the rotation of device, remain the orientation of the rotated screen.

## XII. Set Screen Lock

---

You can set the screen lock pattern, and when the screen is locked, it will not be unlocked until you draw the right pattern.

1. Enter main menu screen, tap "Settings" > "Security" > "Screen lock".
2. There are several options available for your selection. To define a pattern, follow the on-screen prompts to plot your pattern.
3. After drawing, tap "Confirm" to save your setting.

## XIII. APPLICATION

---

- **View installed applications**

1. Enter main menu screen, tap "Settings" > "Apps" to open the downloaded application list.
2. The following operations can be done:
  - Tap the desired one to view the application information.
  - Tap and choose "Sort by size" from the pull-down menu, the applications will be displayed in size order automatically.
  - Tap and choose "Reset app preferences" from the pull-down menu, a confirmation dialog box will appear on the screen, tap "Reset apps" to proceed; tap "Cancel" to abort.
3. To uninstall an application, tap it to enter the application information screen.
4. Tap "Uninstall" and then follow the on-screen instructions to finish it.

- **View the running applications**

1. Enter the main menu screen, tap "Settings" > "Apps". Scroll the screen from right to left to RUNNING tab to open the currently running application list.
2. The following operations can be done:

- View the currently running applications;
- Tap any one to stop it.

## **XIV. LANGUAGE&INPUT METHOD**

---

Language setting:

1. Enter the main menu screen, tap "Settings" > "Language & input">Tap language.
2. Tap "Language" and choose the desired language in this device.

input method setting:

The device provides several kinds of input methods. Tap setting before the desired input method.

## **XV. SET DATE&TIME**

---

This device is preset to use the network-provided date, time zone and time. Note: If Automatic date & time is set as Use network-provided time, date, time and time zone will not be defined.

1. Enter the main menu screen, and tap "Settings" > "Date & time".
2. Tap "Set date", and scroll the screen upwards and downwards until the desired numbers appear on the highlight area.
3. Tap "Select time zone", and choose the desired one from the time zone list. Scroll the screen upwards and downwards to view more.
4. Tap "Set time" and scroll the screen upwards and downwards to adjust the hour and minute. After setting, tap "Done" to confirm.
5. Select or deselect "Use 24-hour format" to switch between 12-hour format and 24-hour format.
6. Tap "Choose date format" to choose the desired date of this device format from the list.

## **XVI. RESTORE TO FACTORY SETTINGS**

---

This option enables you to restore this device to the default factory settings. Once it is reset, all data (including downloaded applications) will be deleted. Note: Before resetting to factory data, please back up all important data saved in your device.

1. Enter the main menu screen, tap "Settings" > "Backup & reset" > "Factory data reset".
2. Follow the instructions on the screen to proceed.

## **XVII. STORE**

---

Enter the main menu, and tap setting> store check the store situation of the device.Store the download content in the default browser to the download content list.

## **XVIII. APPS INSTALLATION/ UNINSTALL**

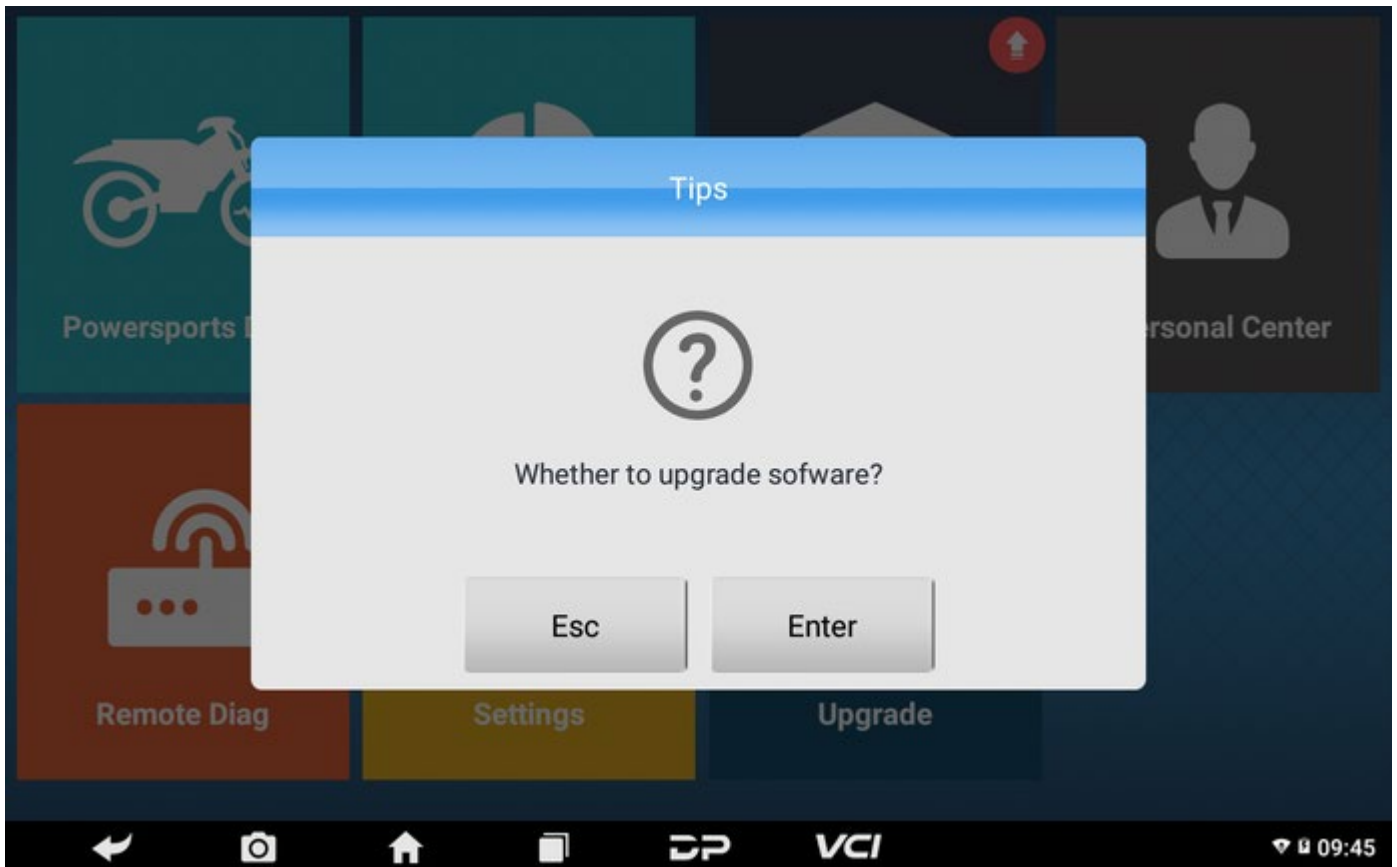

---

- Install: Put the application package under the root directory of SD card, enter "File Manager" and then tap the desired package to start installing.
- Uninstall: Tap "Settings" > "Apps", and choose the desired one to uninstall.

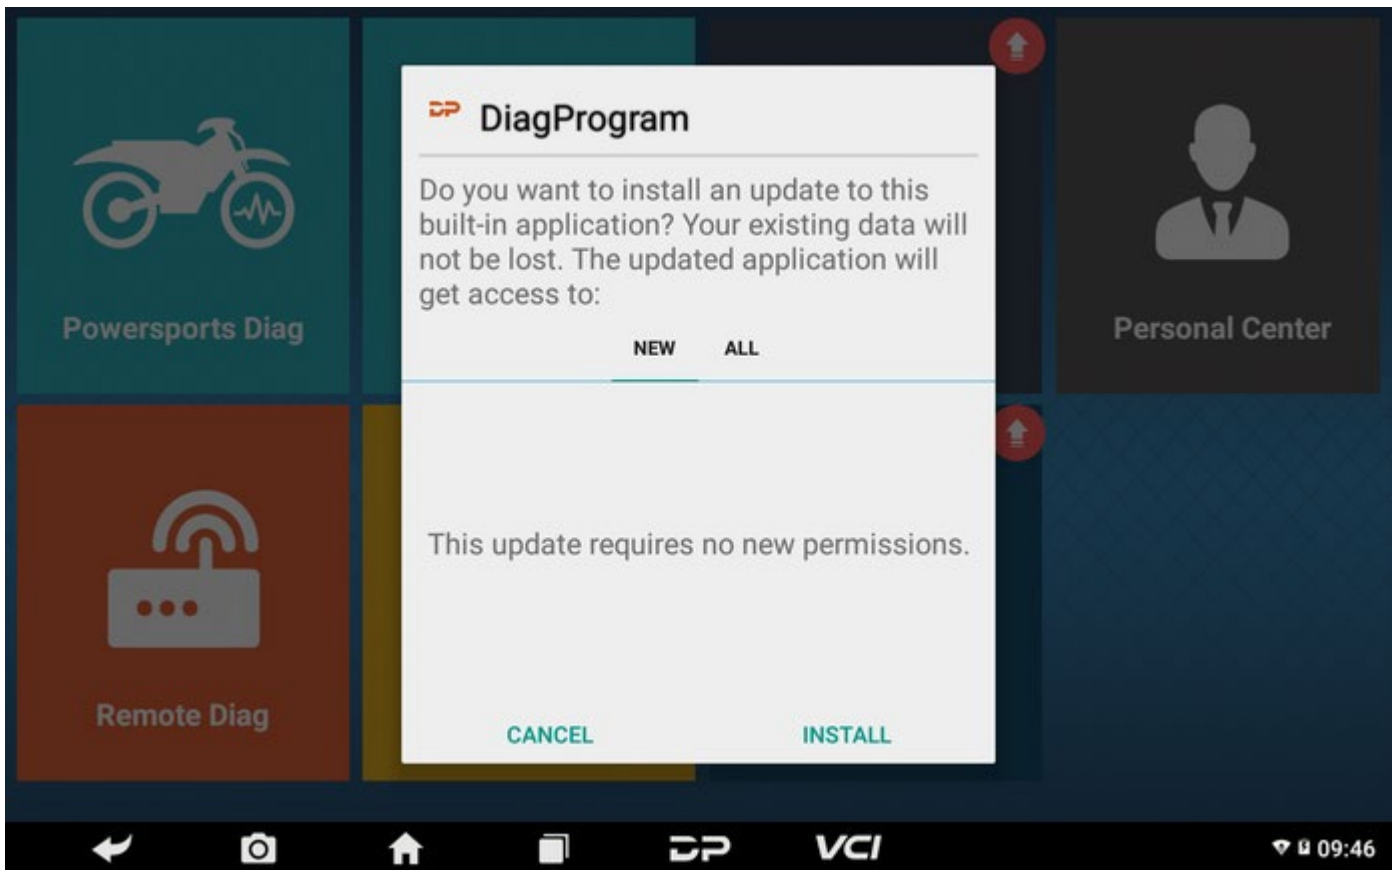

Notes: Ensure Internet connection is normal when updating. Besides, because of many software, it may take several minutes, please wait patiently.

## I. Detection System Upgrade

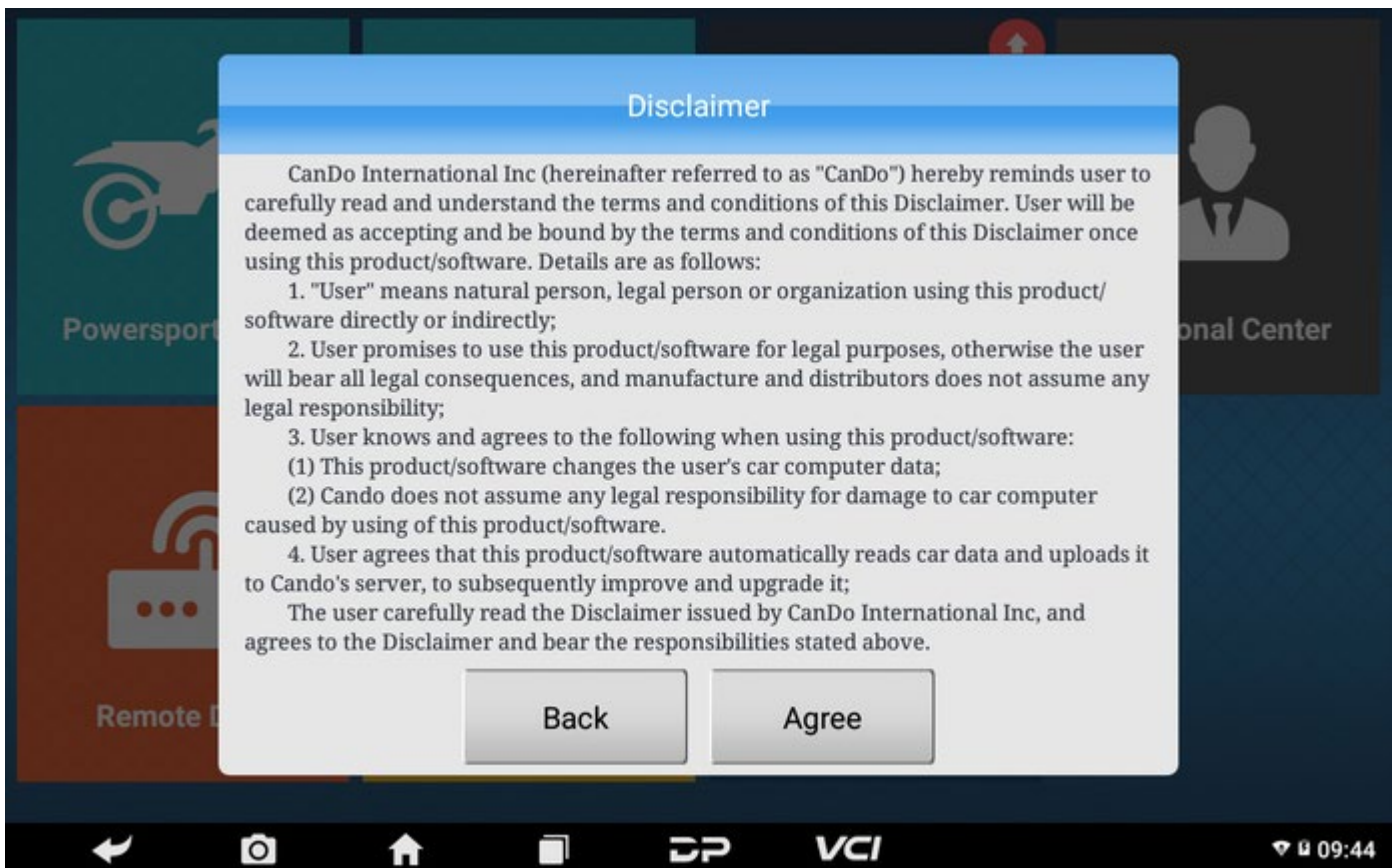

The system APK automatically detects the version. If there is a version update, a red dot is in the upper right corner of the upgrade button. Click on the upgrade button to prompt "Whether to upgrade software?":

If not, click "Esc", you will directly return to the main interface. However you cannot enter the upgrade diagnosis application interface. Click on the APK upgrade and it prompts to install:

Click on the installation and perform the program installation, automatically close the program and install. After installation, click on the program image to re-enter the DP program:

## II. Diagnostic Function Upgrade

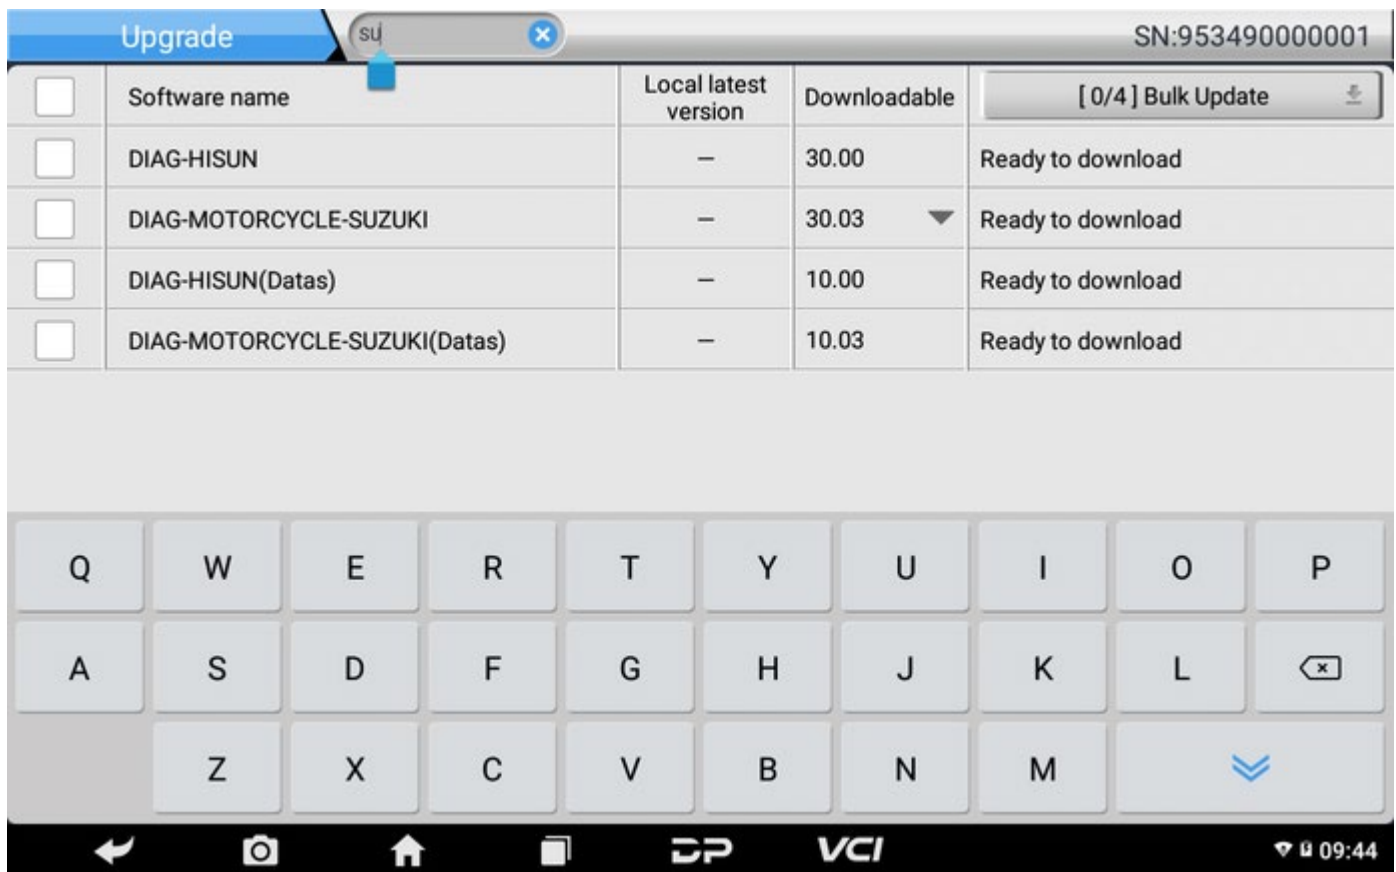

Download and upgrade software by "Bulk Update".

Upgrade		SN:953490000001		
<input type="checkbox"/>	Software name	Local latest version	Downloadable	[ 0/147 ] Bulk Update
<input type="checkbox"/>	DIAG-ADIVA	—	30.00	Ready to download

<input checked="" type="checkbox"/>	DIAG-CNABS	—	30.03	Queuing

If a software needs to be canceled, just tap the corresponding Check Box. You can search for the updated model required in the search box (Fuzzy Search function). As following photo shown:

After the upgrade is completed, you can enter the diagnostic programming to view the upgrade version description and the version number, and you can perform related diagnostic operations and functions.

## I. CONNECT VCI CONNECTOR

---

Procedure to connect VCI connector:

1. Locate motorcycles' diagnostic socket. The connectors of the diagnostic socket of different models are inconsistent. You need to use the corresponding model adapter. You can check the approximate location of the model adapter in the diagnostic bitmap in the software data.
2. Plug the diagnostic connector of this device into the diagnostic socket.

## II. DIAGNOSIS FLOWCHAT

---

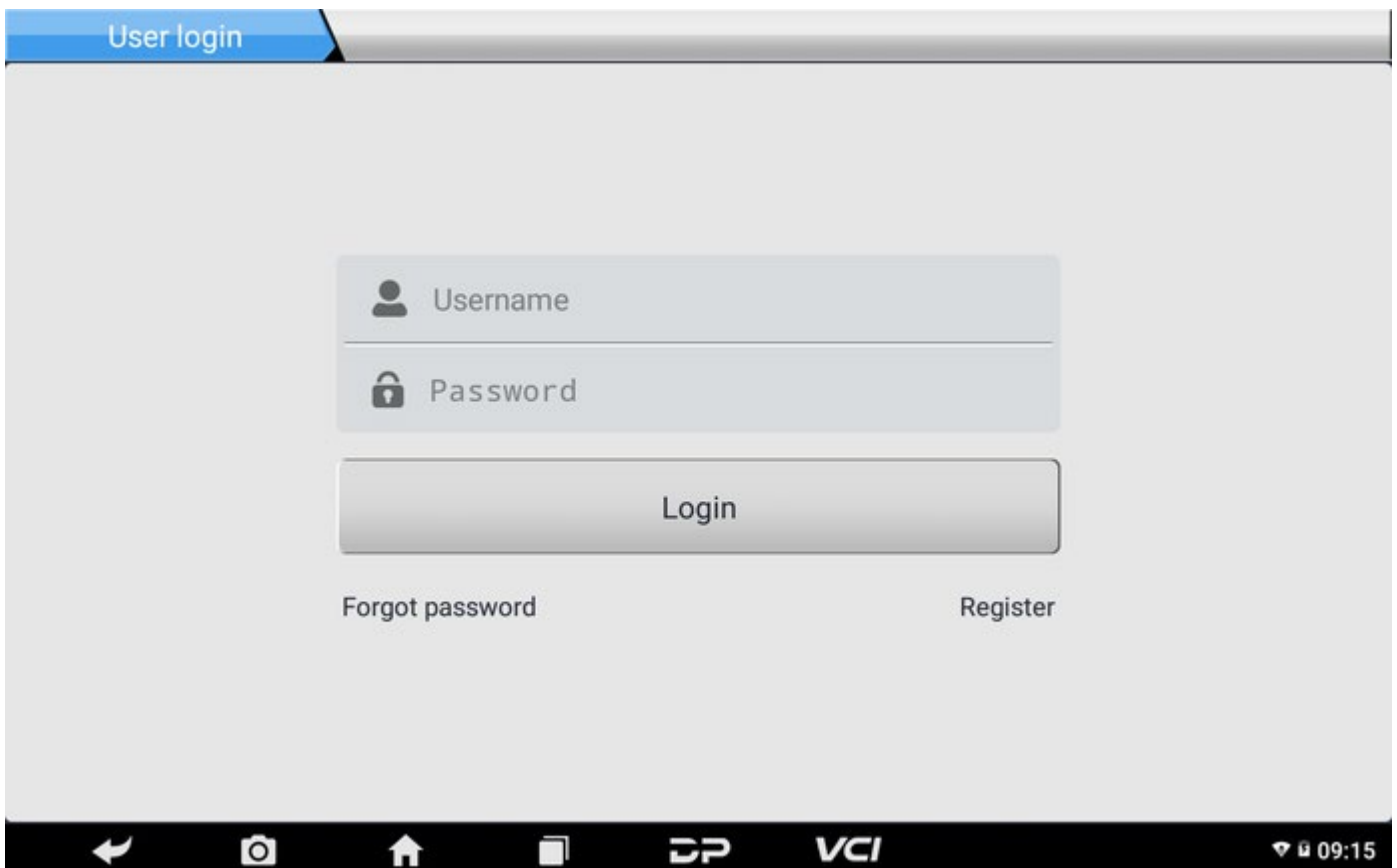

For new users, please follow the 3.1 to get familiar with and start using this device.

Connect the diagnostic connector →user registration→user login→download or upgrade software→select function or vehicle type→proceed diagnosis

## III. PERSONAL CENTER

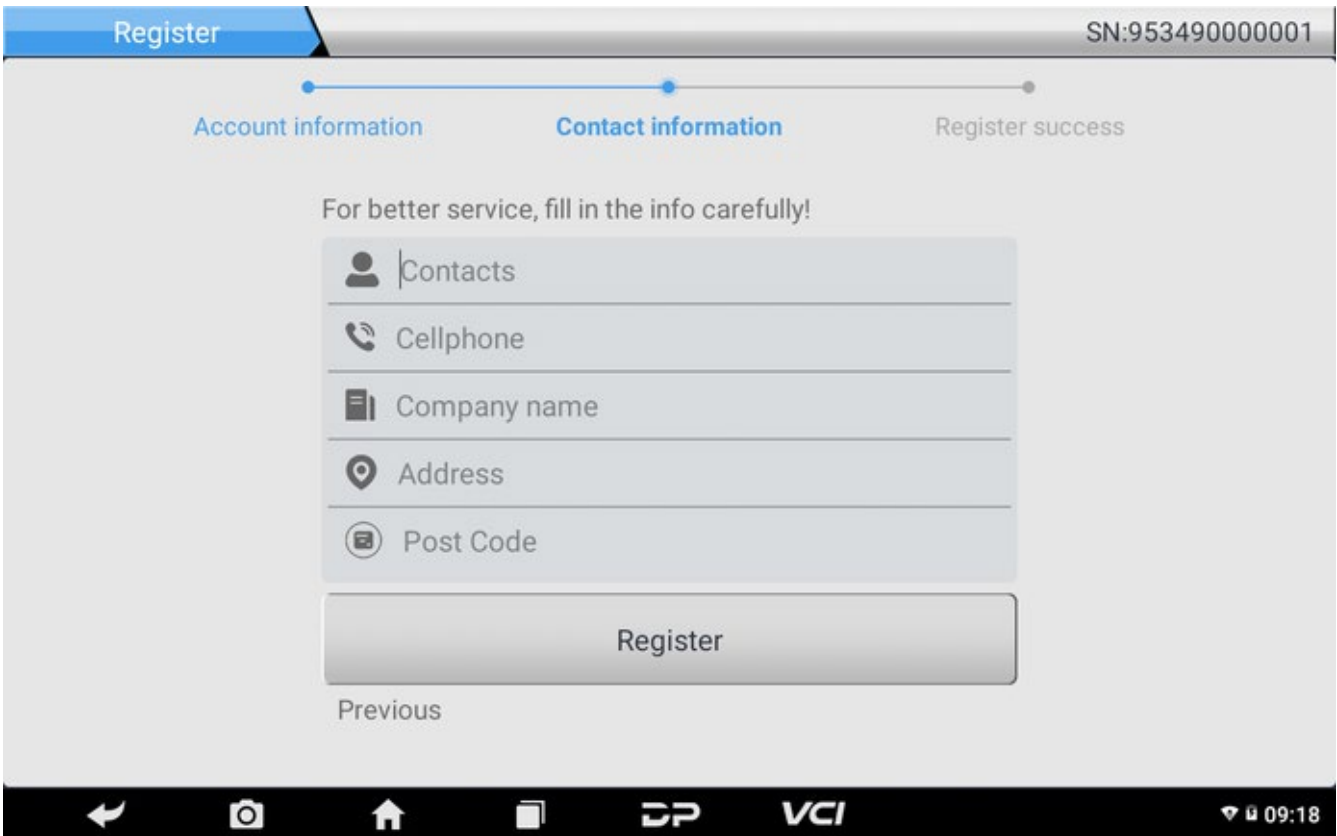

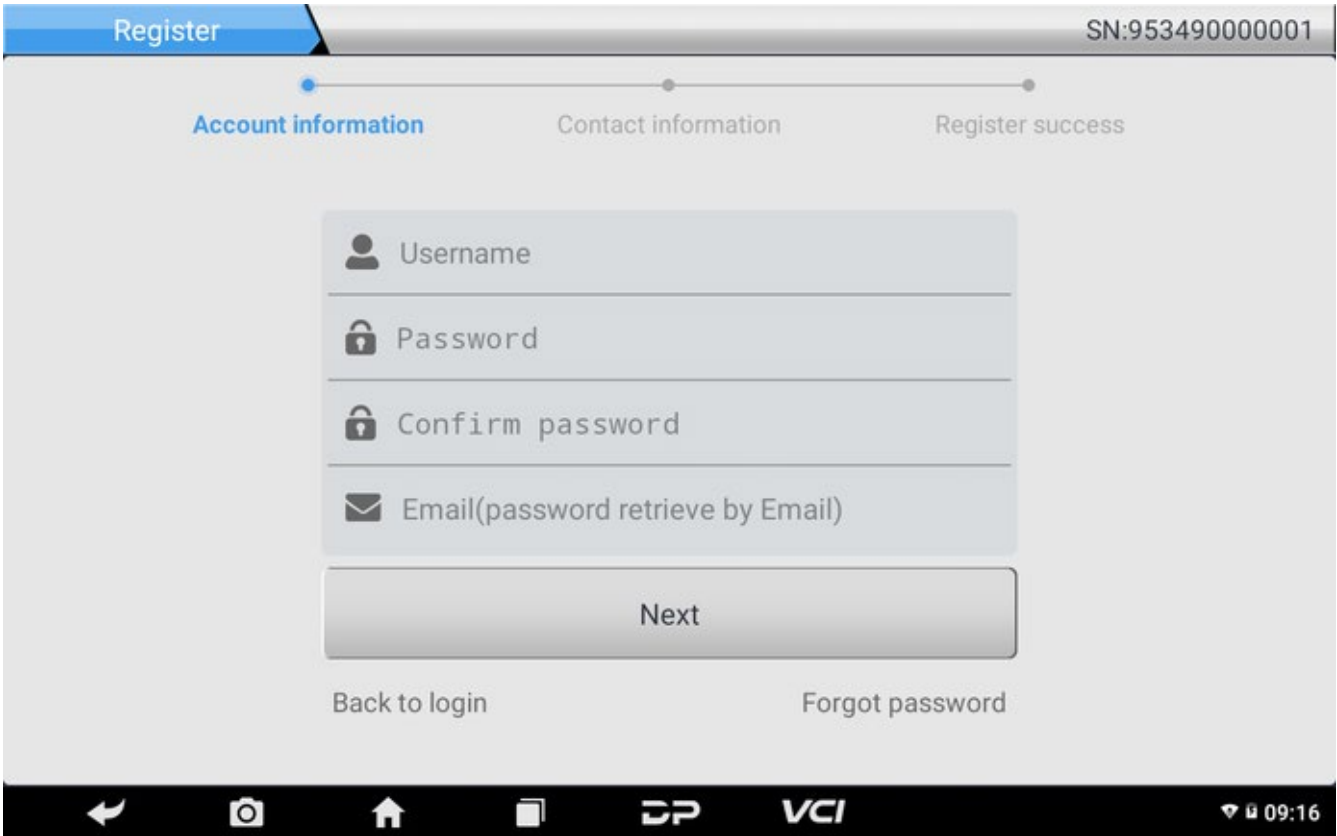

---

Used to set up and manage account details, and you can view the dealer information.

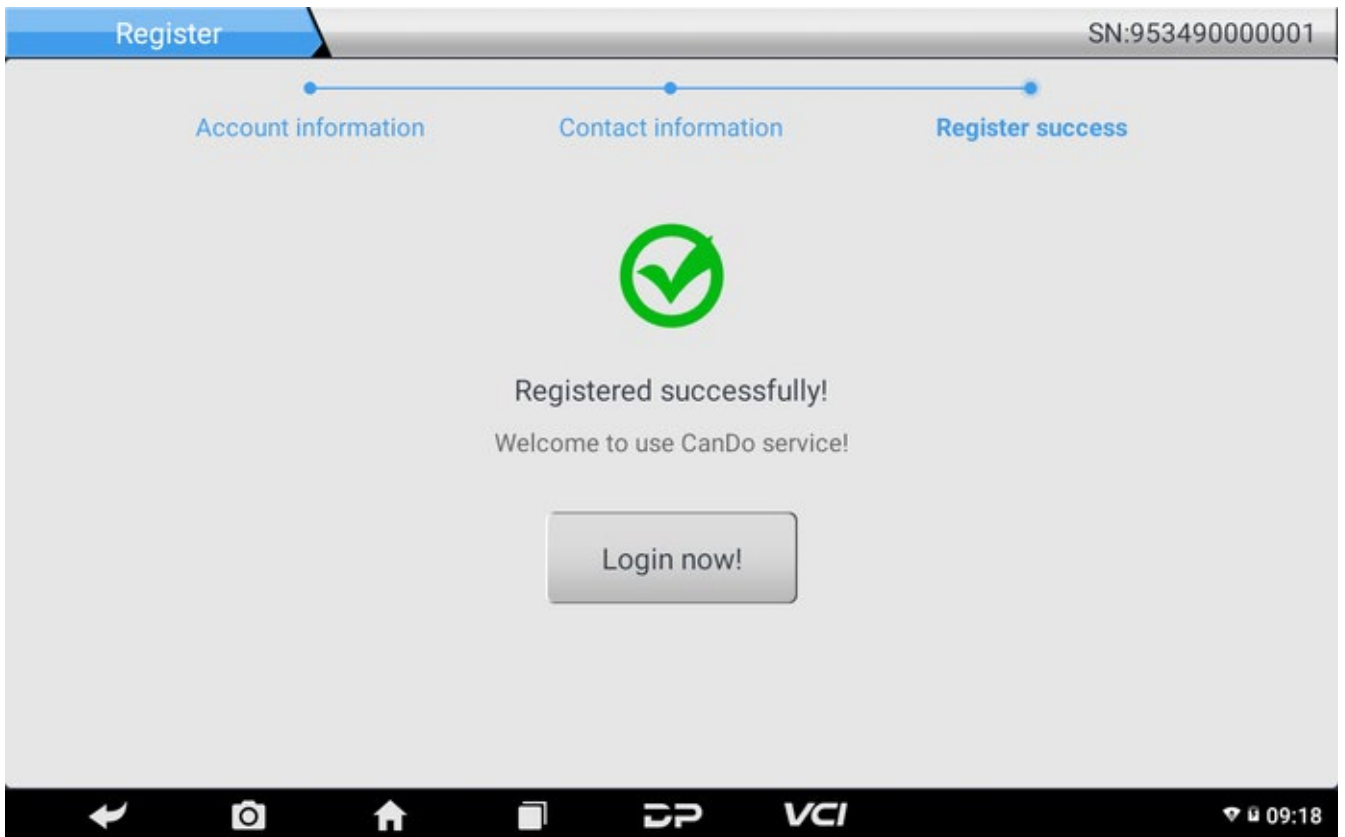

- **User registration**

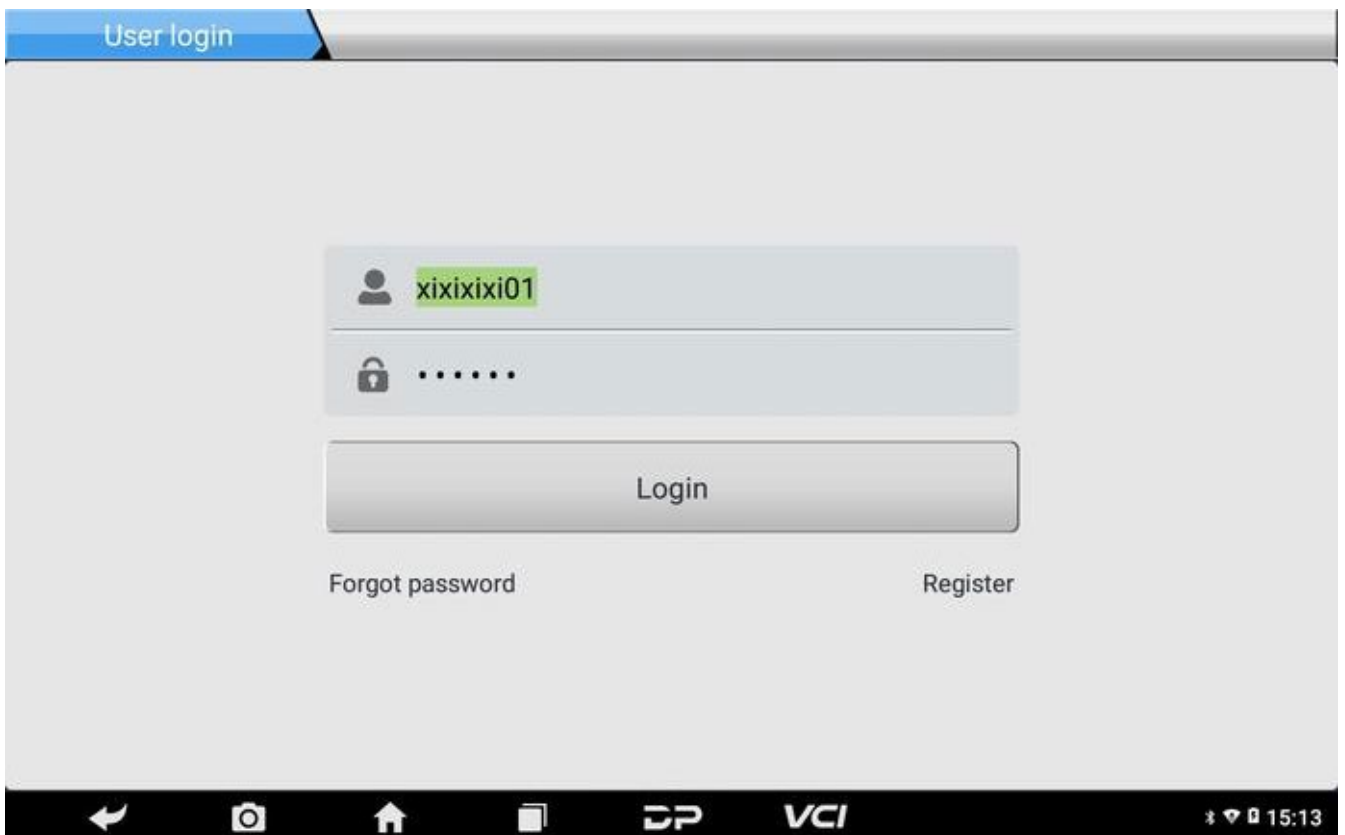

Enter the Personal Center interface, display the login interface, click the “Register” button in the lower right corner to enter the user registration interface. As shown:

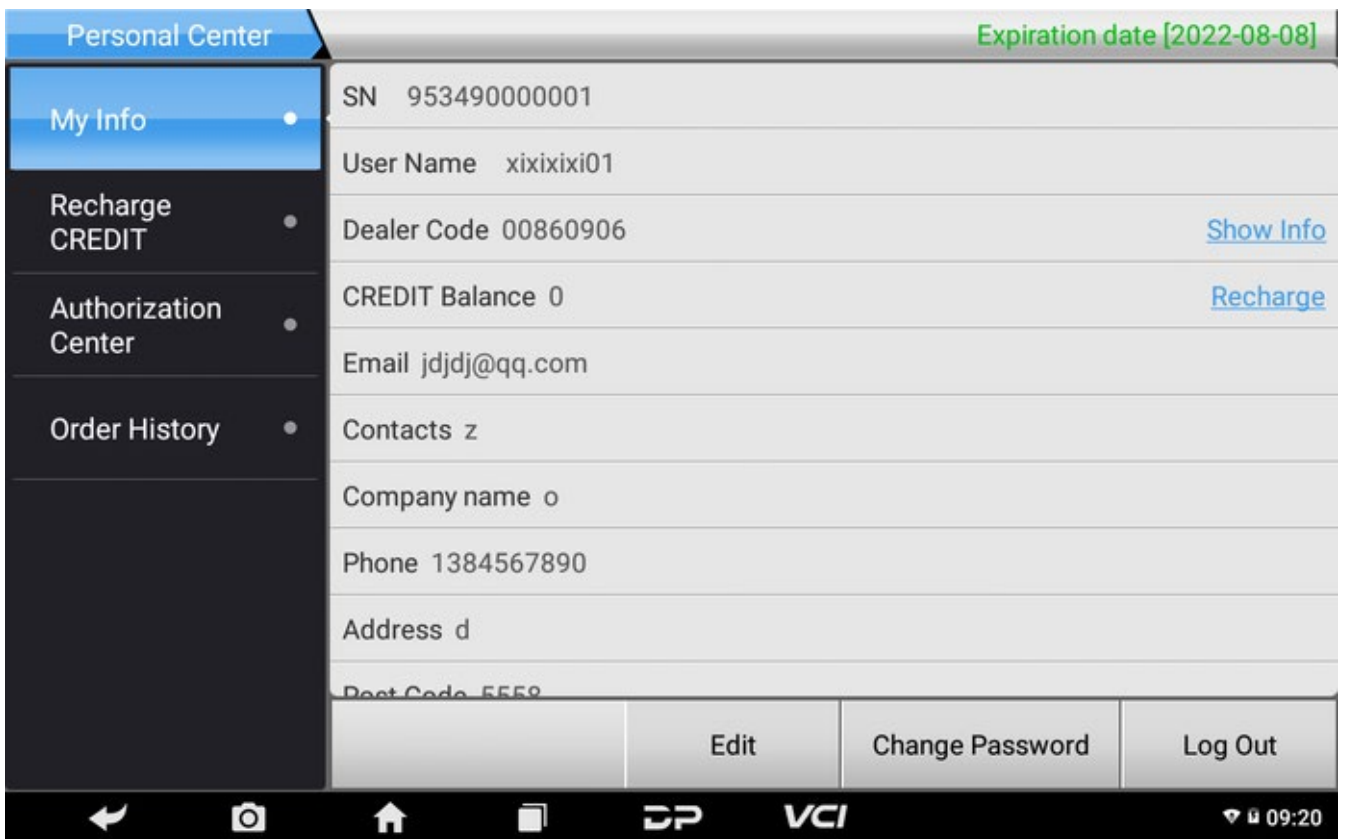

Fill in the information in each field. After that, the registration is successful, click “Login now!”  
If you have registered to be a member, click “User login” to enter user login page, as following picture shown:

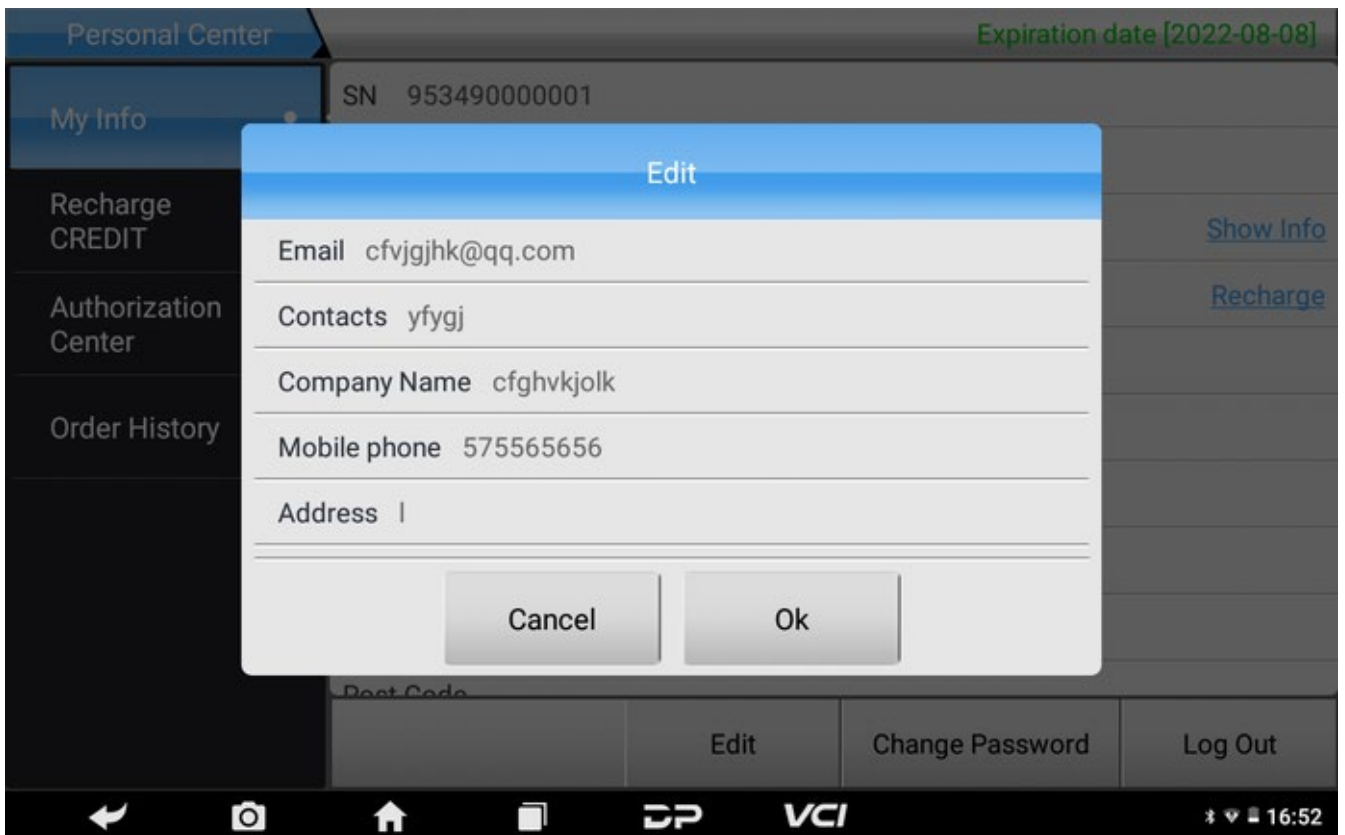

- **User login**

After the registration is completed, fill in the account number and password and click login:

Display personal basic information and modify information and password.

- **Modify information**

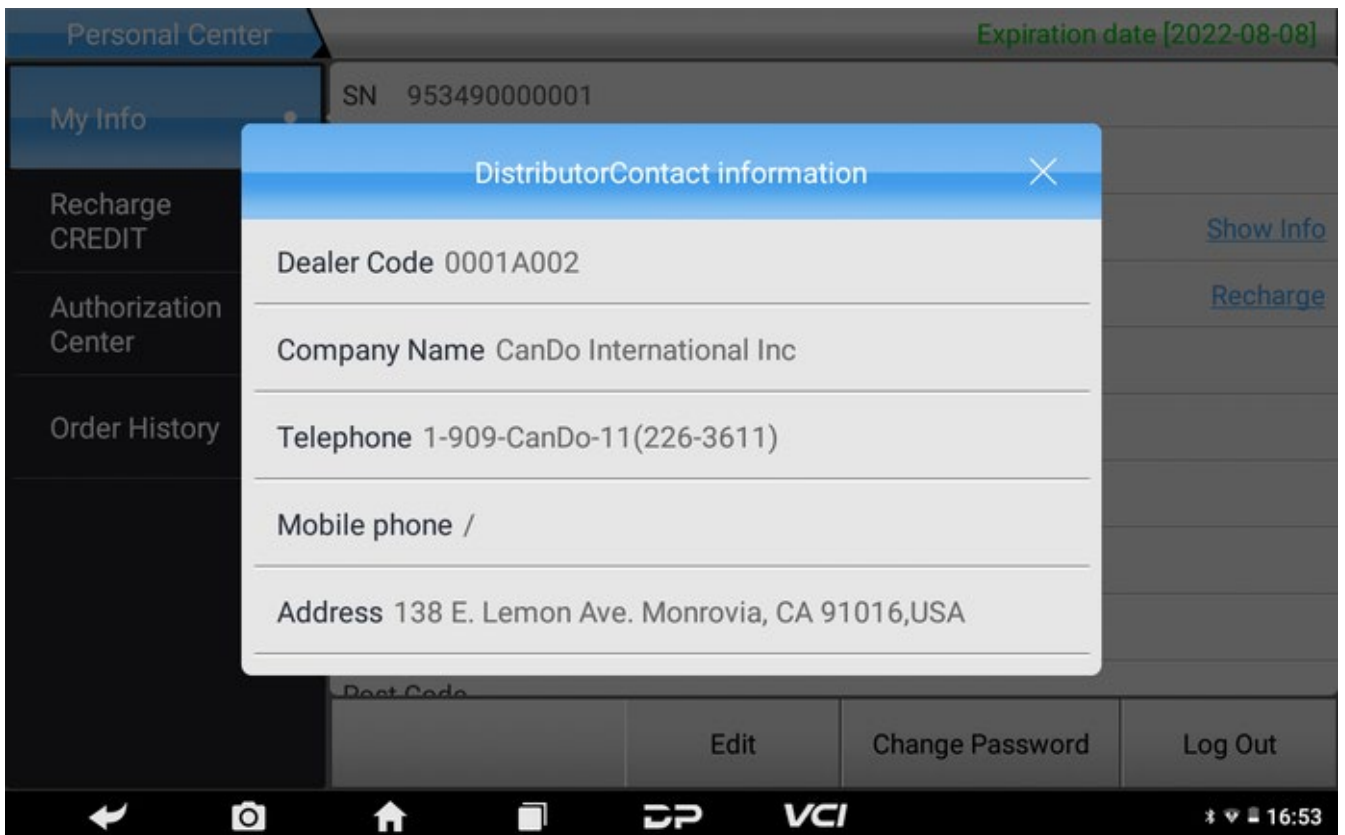

- **Change password**

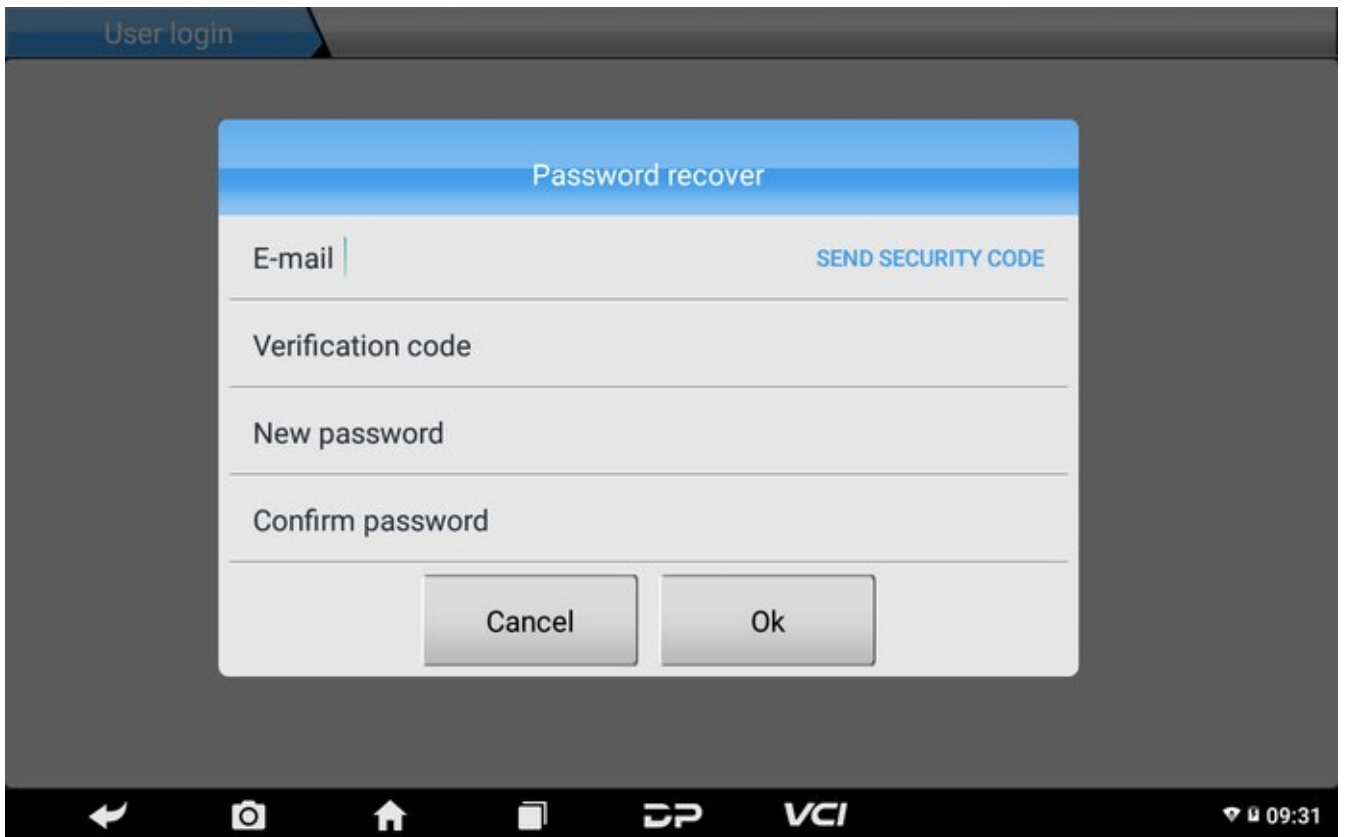

- **View distributor information**

Click "Show Info" to view the Distributor Contact Information.

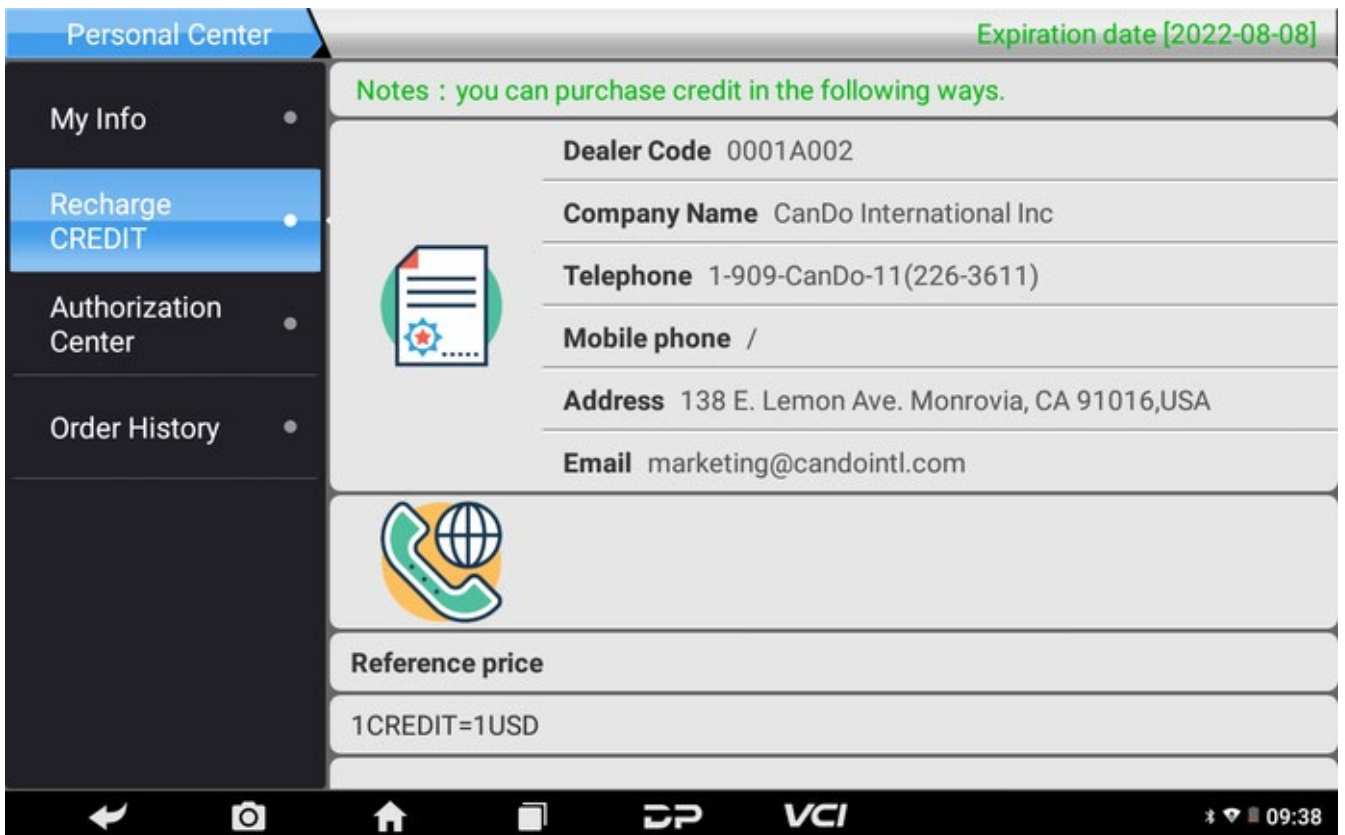

- **Recover password**

Click on the forgotten password in the login interface to enter the password recover interface, fill in the relevant information to recover the password.

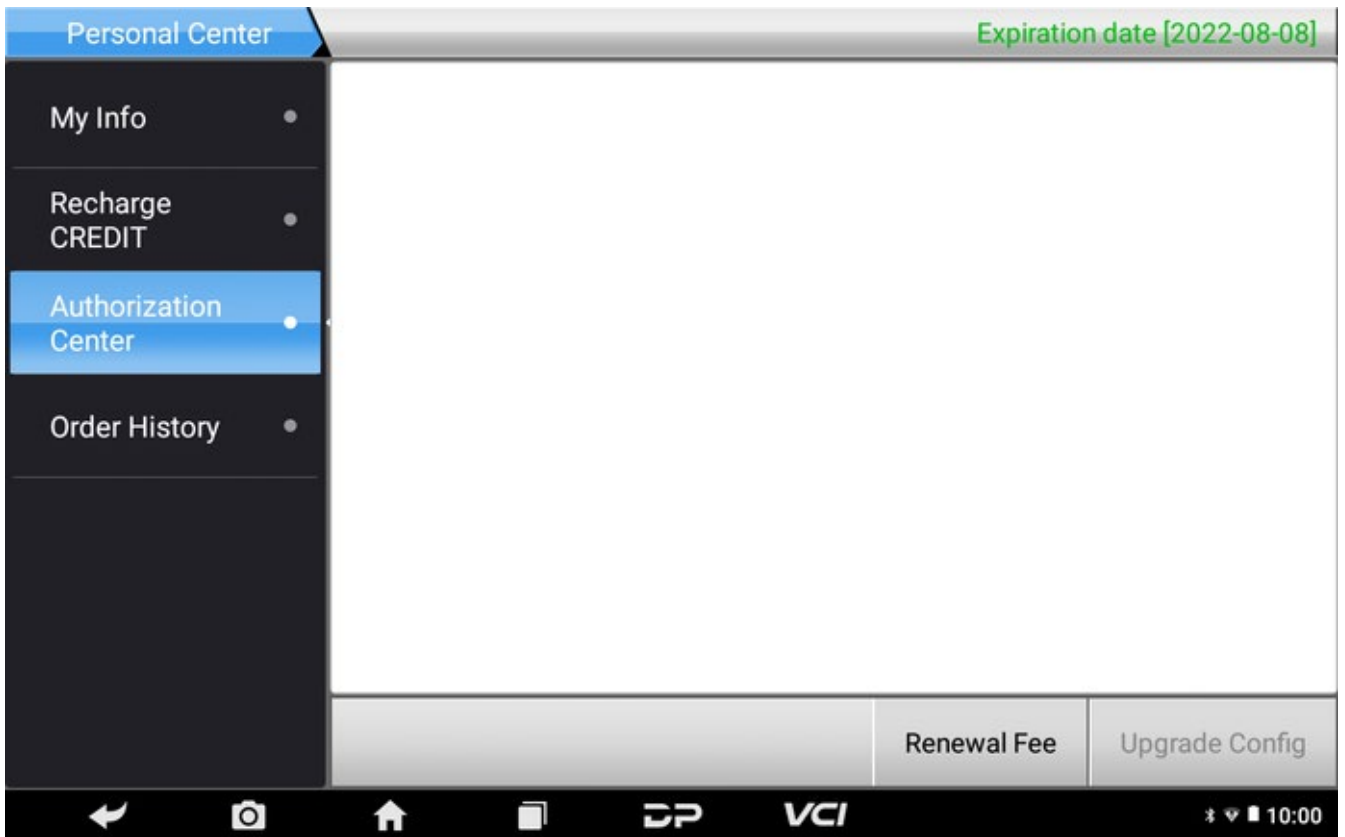

- **Recharge CREDIT**

Click "Recharge credit" and you can recharge credit by contacting the dealer.

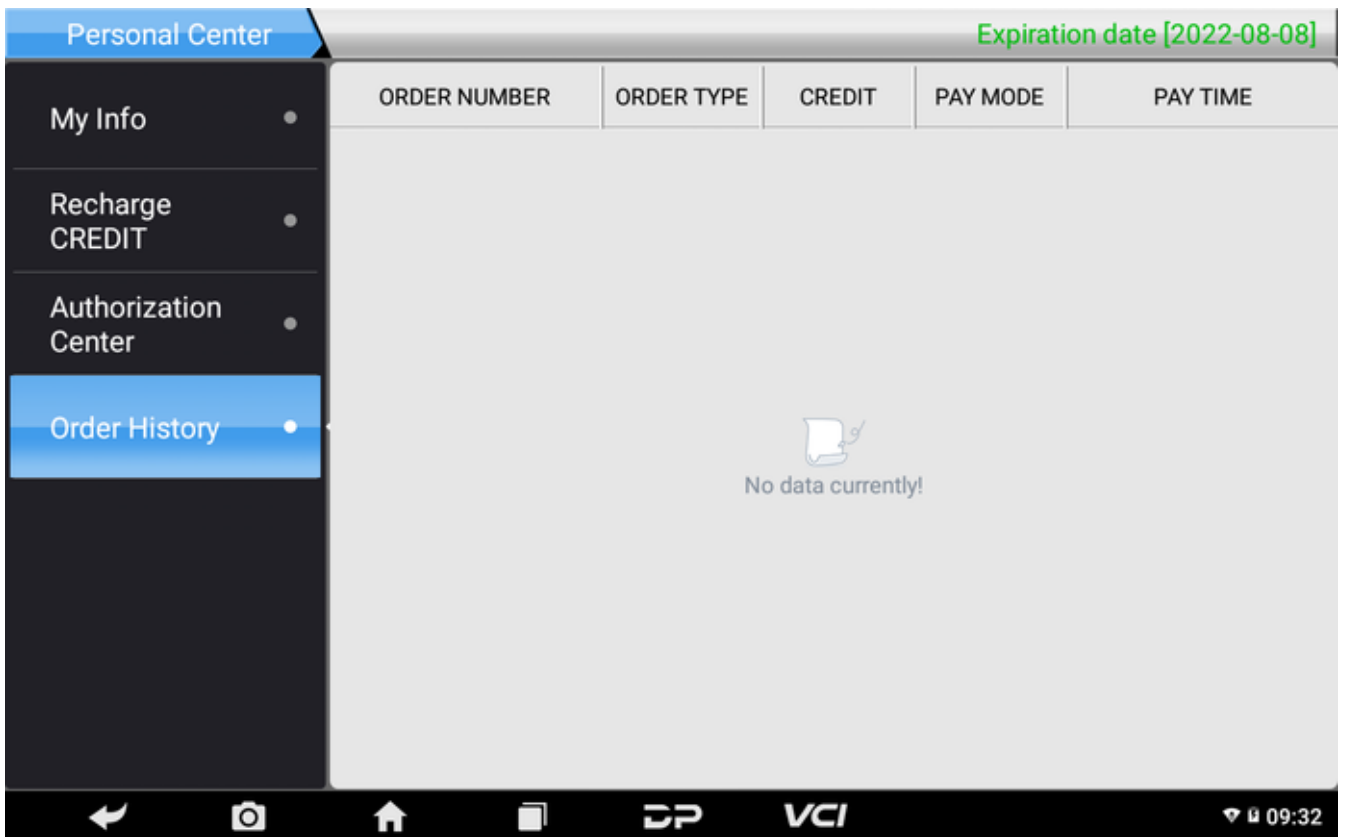

- **Authorization Center**

Click "Authorization Center" for the yearly subscription and configuration update. (Note: this function currently not activate)

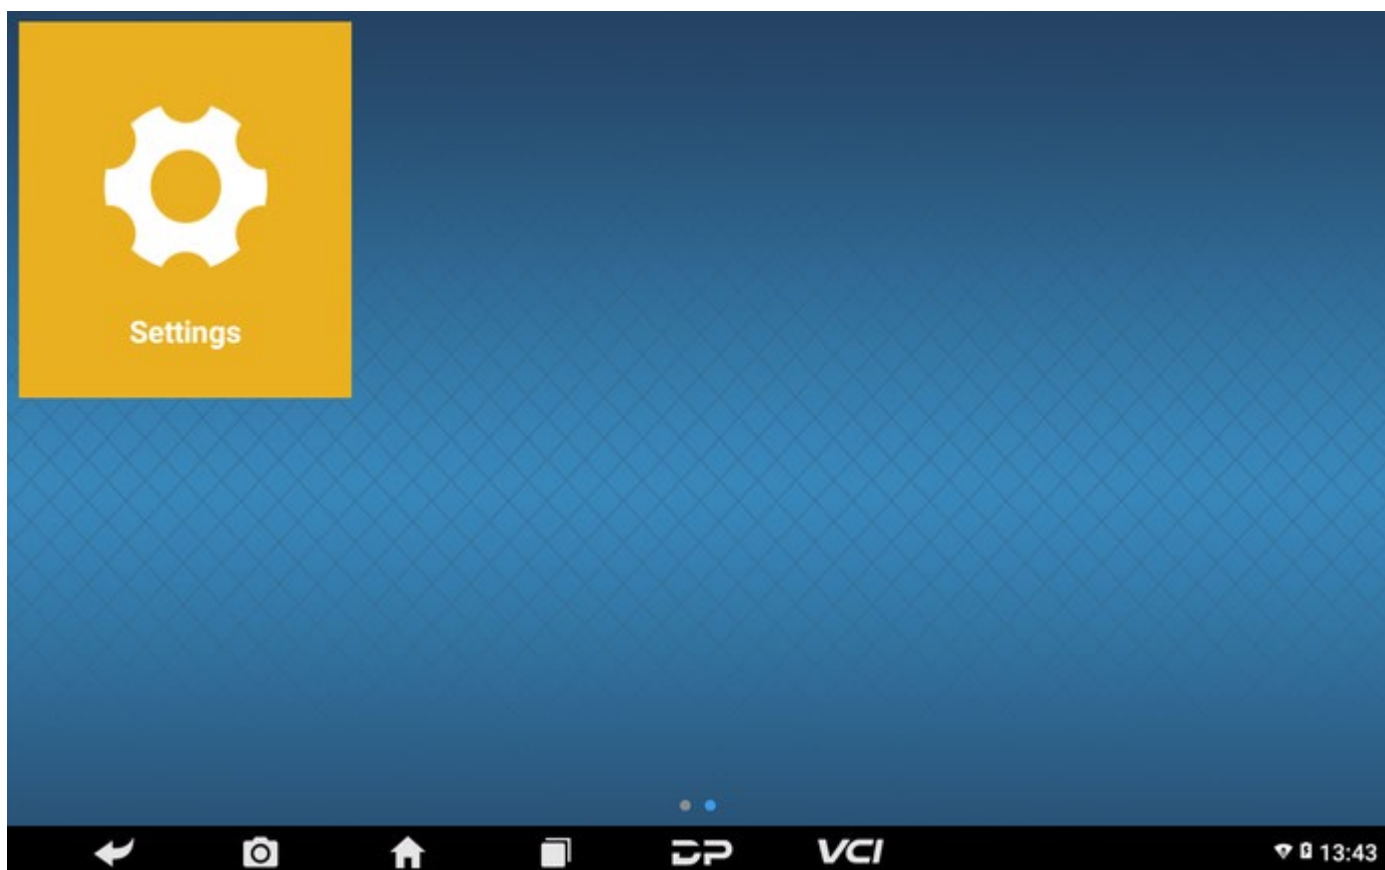

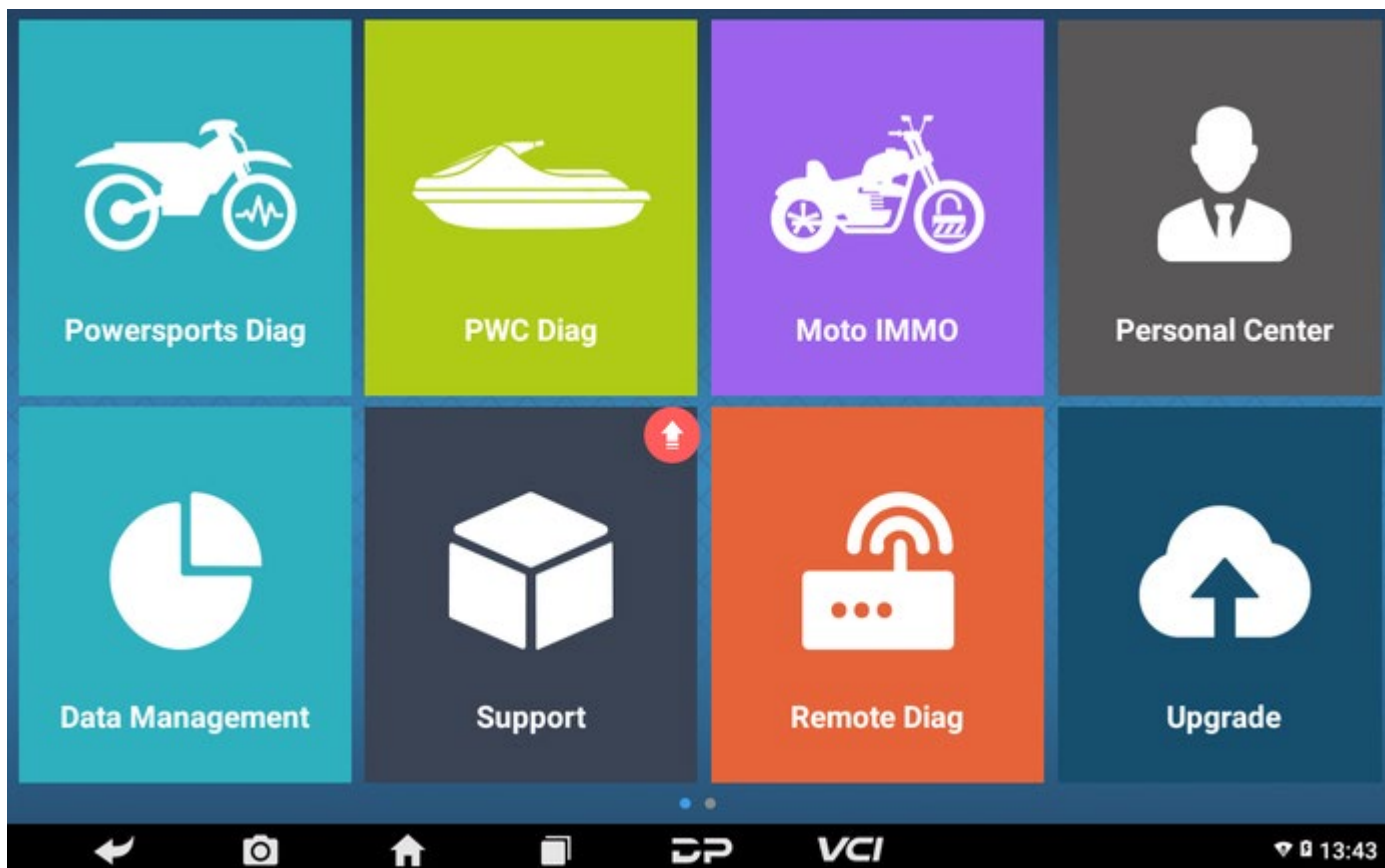

- **Order history**  
Click "Order history" to view the Order history.

#### IV. Diagnostic Software Main Interface Introduction

---

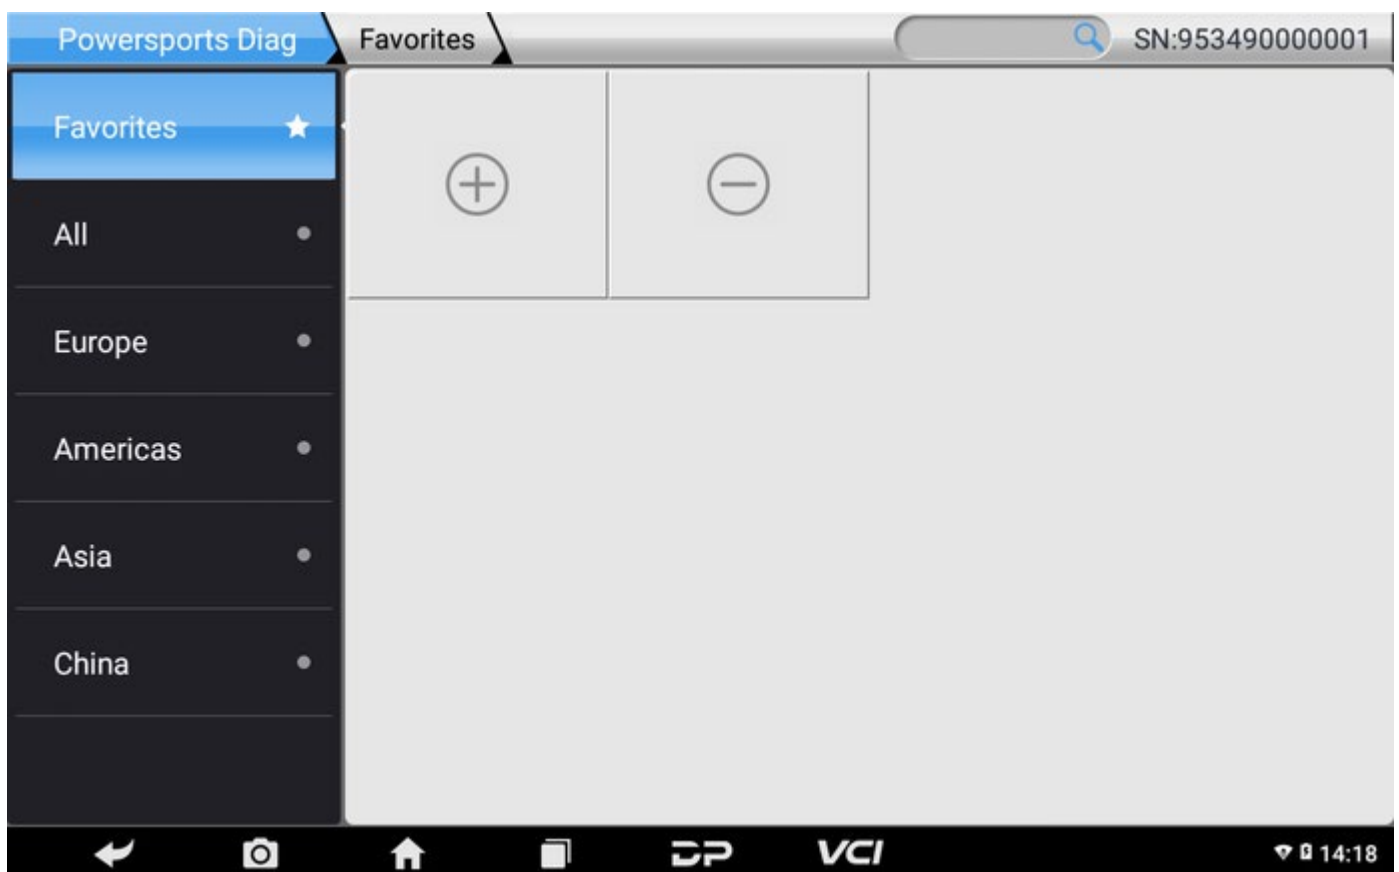

The main interface is divided into two pages, including the following functions:

FUNCTION	DESCRIPTION
Powersports Diag	Enter the motorcycle diagnostic programming function.
PWC Diag	Enter the motorboat diagnostic programming function.

Moto IMMO	Enter the moto IMMO programming function for programming.
Personal Center	New user registration, login; User details management, dealer information inc
Data Management	Including file management, data playback, uninstall vehicle models, workshop
Support	Including vedio center, product instruction, frequently asked questions.
Remote Diag	Realize remote hosting operation.
Upgrade	To download diagnostic software or upgrade diagnostic software to the latest
Settings	It includes VCI information, language, unit, about, network test.

## V. START DIAGNOSING

Tap on the main menu screen, and then choose “Moto Diag” to enter the function selection and vehicle selection page. Enter the Favorites menu path by default, as shown in the figure below:

Click on the plus sign to enter the interface for selecting vehicle series and tick the square in the upper right corner of vehicle logo to choose to add to favorites:

If you want to delete favorite vehicles from Favorites, click the minus sign, remove the ticked and then click Delete in the upper right corner to delete it from Favorites.)

You can see all the downloaded software of the machine configuration. The OBD II software is in each area by default and in the first position:

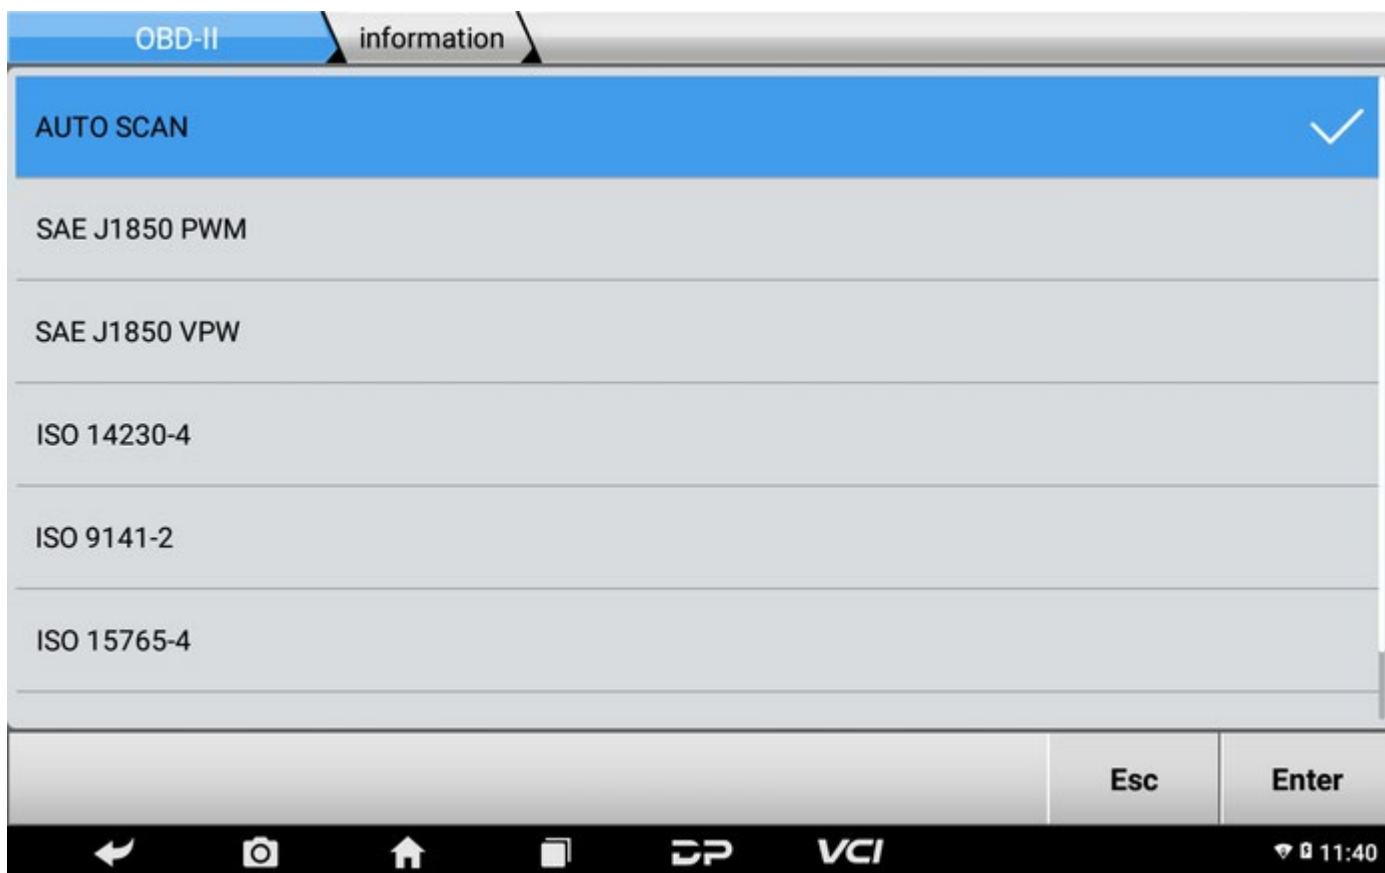

Hereinafter, take OBDII for example, to introduce how to start diagnosing. Click on the icon of the “OBDII Engine” under the menu of other special functions. As shown in following photo:

To select software version, as following photo shown:

To enter diagnostic function menu, as following photo shown:

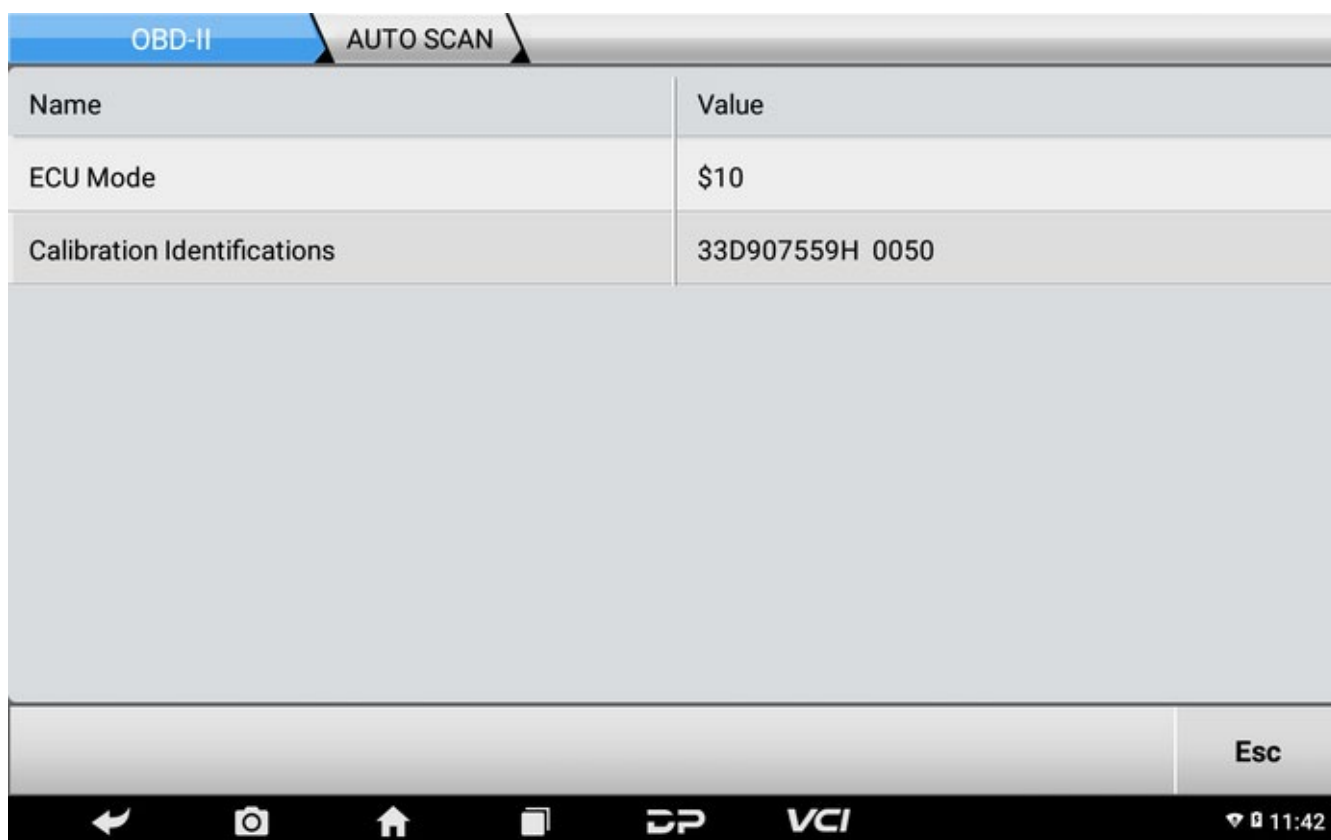

To select AUTO SCAN, as following photo shown:

### 1. Read vehicle information

Tap “Read vehicle information”, as following photo shown:

### 2. Read Stored Codes

Tap “Read Stored Codes”, as following photo shown:

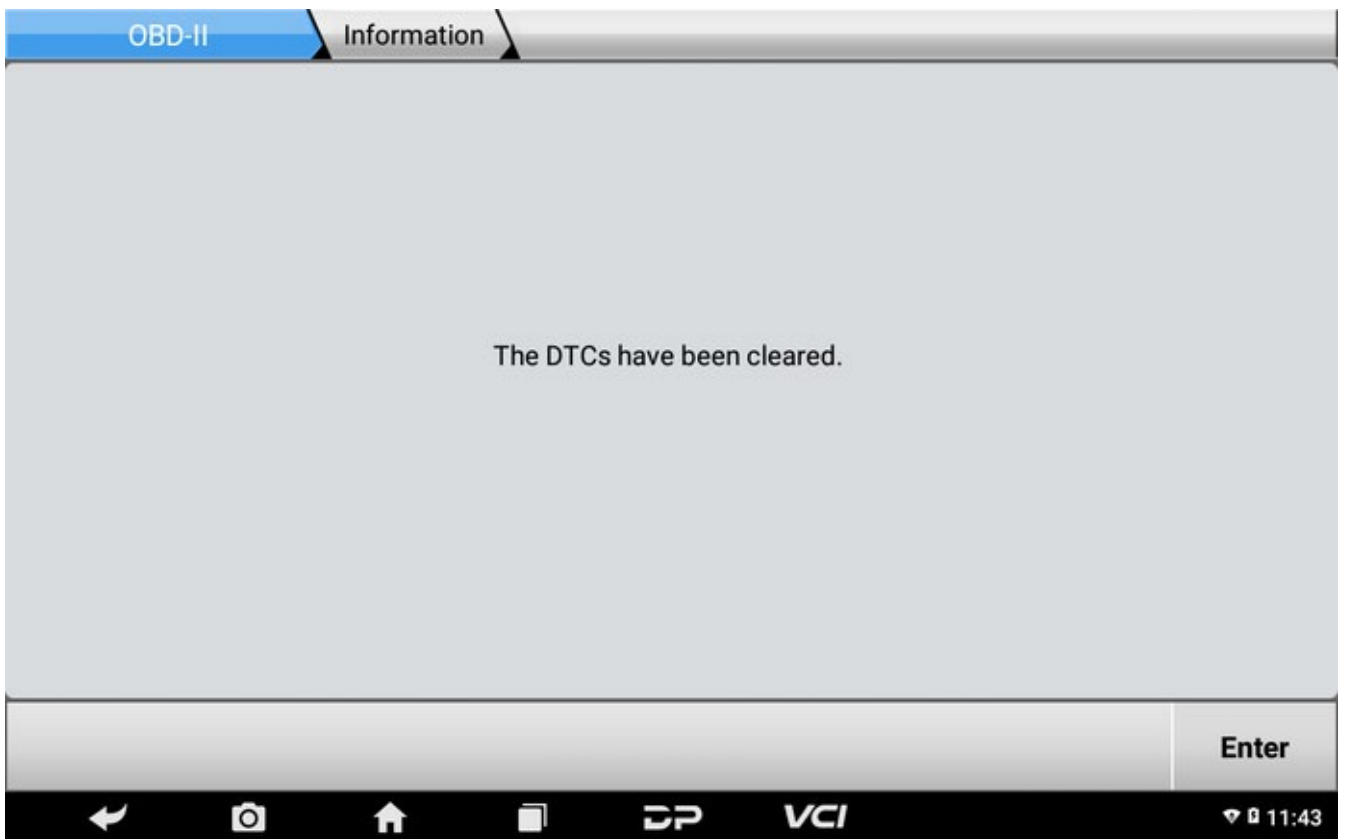

OBD-II AUTO SCAN

DTC ID	DTC Description	State	Other
P0122	Throttle/Pedal Position Sensor/Switch A Circuit Low		
P0222	Throttle/Pedal Position Sensor/Switch B Circuit Low		
P0113	Intake Air Temperature Sensor 1 Circuit High		
P0686	ECM/PCM Power Relay Control Circuit Low		
P0118	Engine Coolant Temperature Sensor 1 Circuit High		

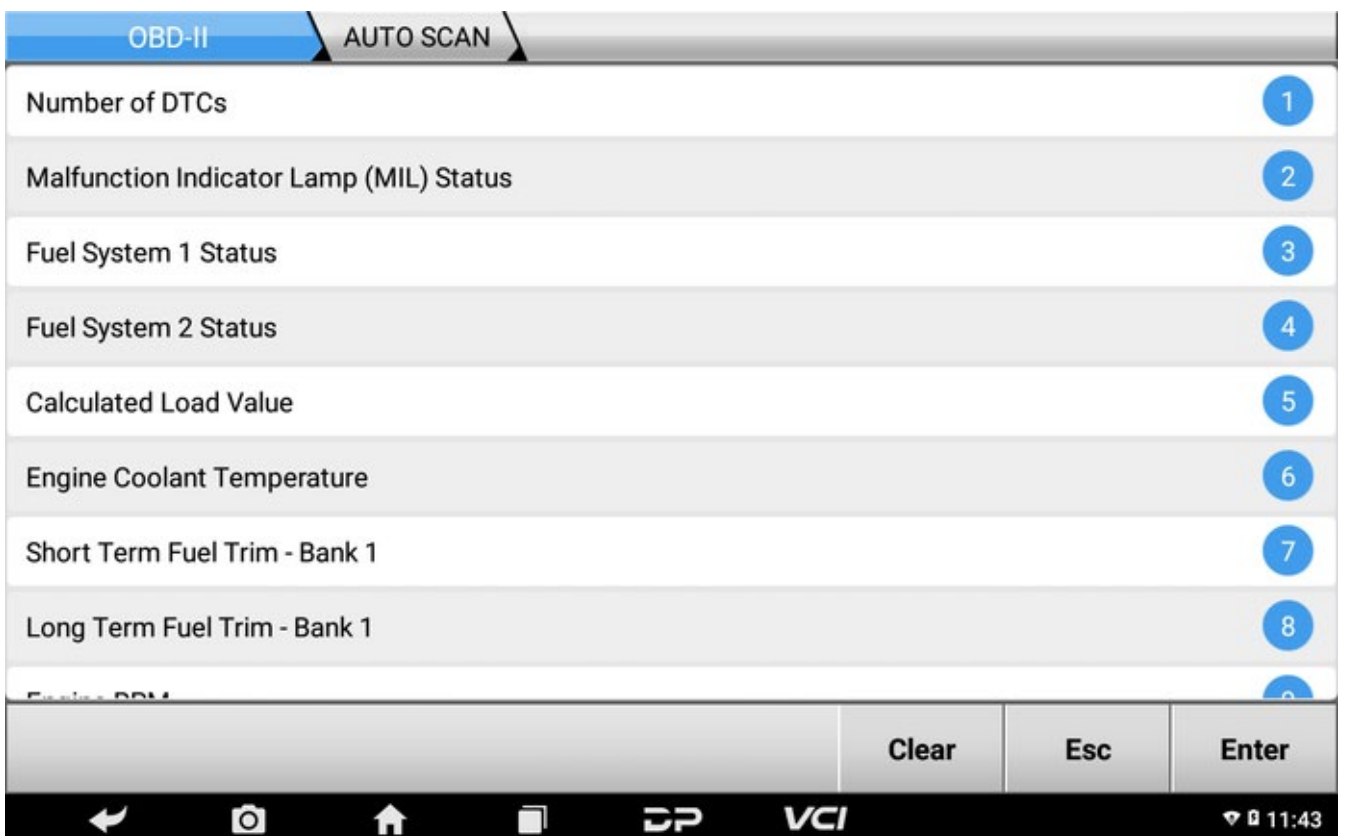

Esc

← 📷 🏠 📄 DP VCI 11:42

### 3. Clear trouble codes

#### 4. Read data stream

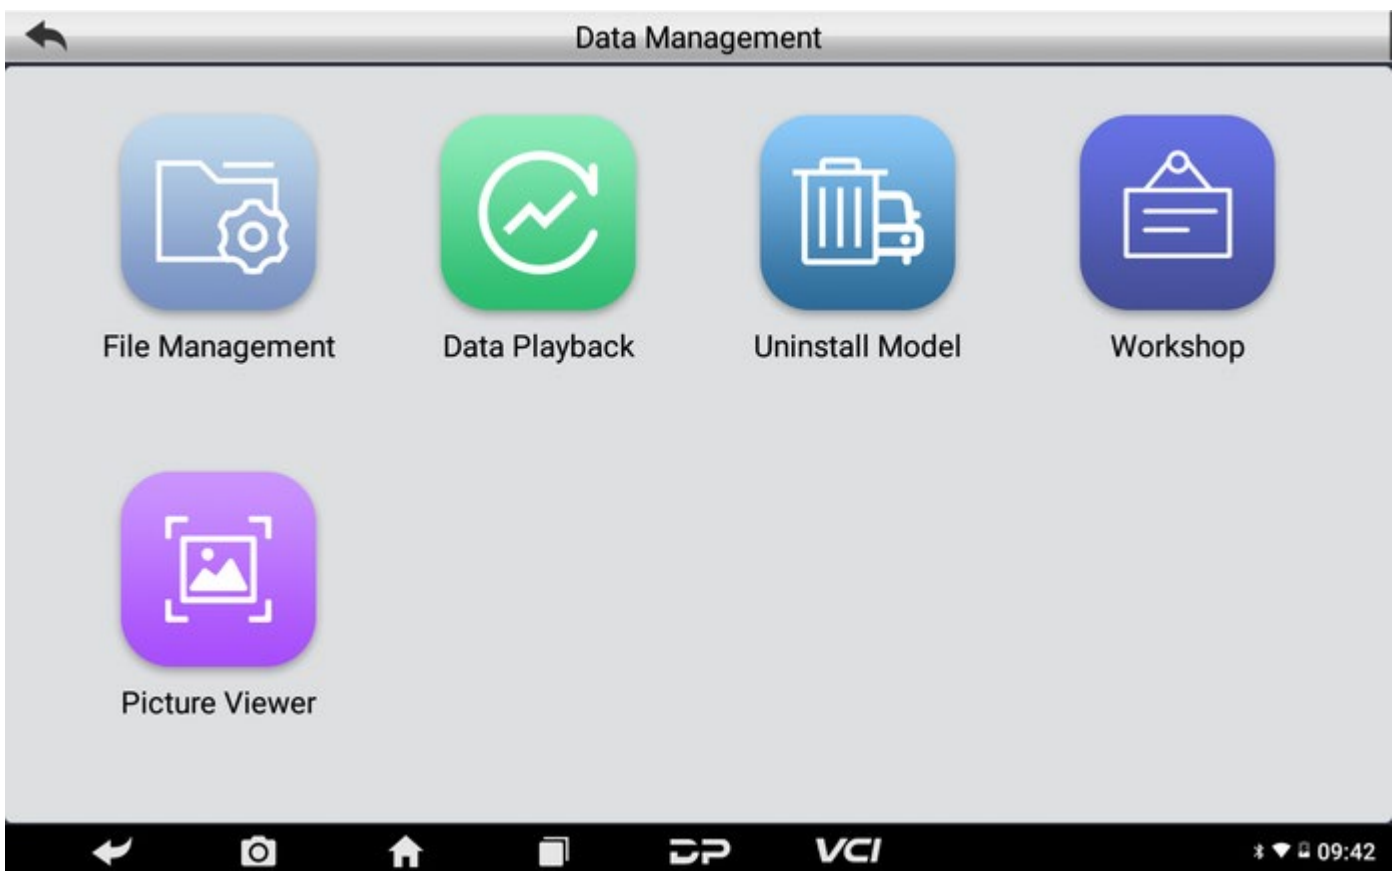

OBD-II		AUTO SCAN		
NO.	Data stream name	Value	Range	Unit
01	Number of DTCs	0		
02	Malfunction Indicator Lamp (MIL) Status	MIL OFF		
03	Fuel System 1 Status	OL		
04	Fuel System 2 Status	Not Used		
05	Calculated Load Value	100.0		%
06	Engine Coolant Temperature	-40		degree C
07	Short Term Fuel Trim - Bank 1	-0.0		%
08	Long Term Fuel Trim - Bank 1	-0.0		%

Esc

## VI. Data Management

You can enter File Management, Data Playback, Uninstalled Modle, Workshop and Picture viewer.

- **File management**

You can view the related information in the files;

- **Data playback**

Data stream has recording and playback function, can achieve the same interface dynamic data comparison, and can easily and quickly find the abnormal data;

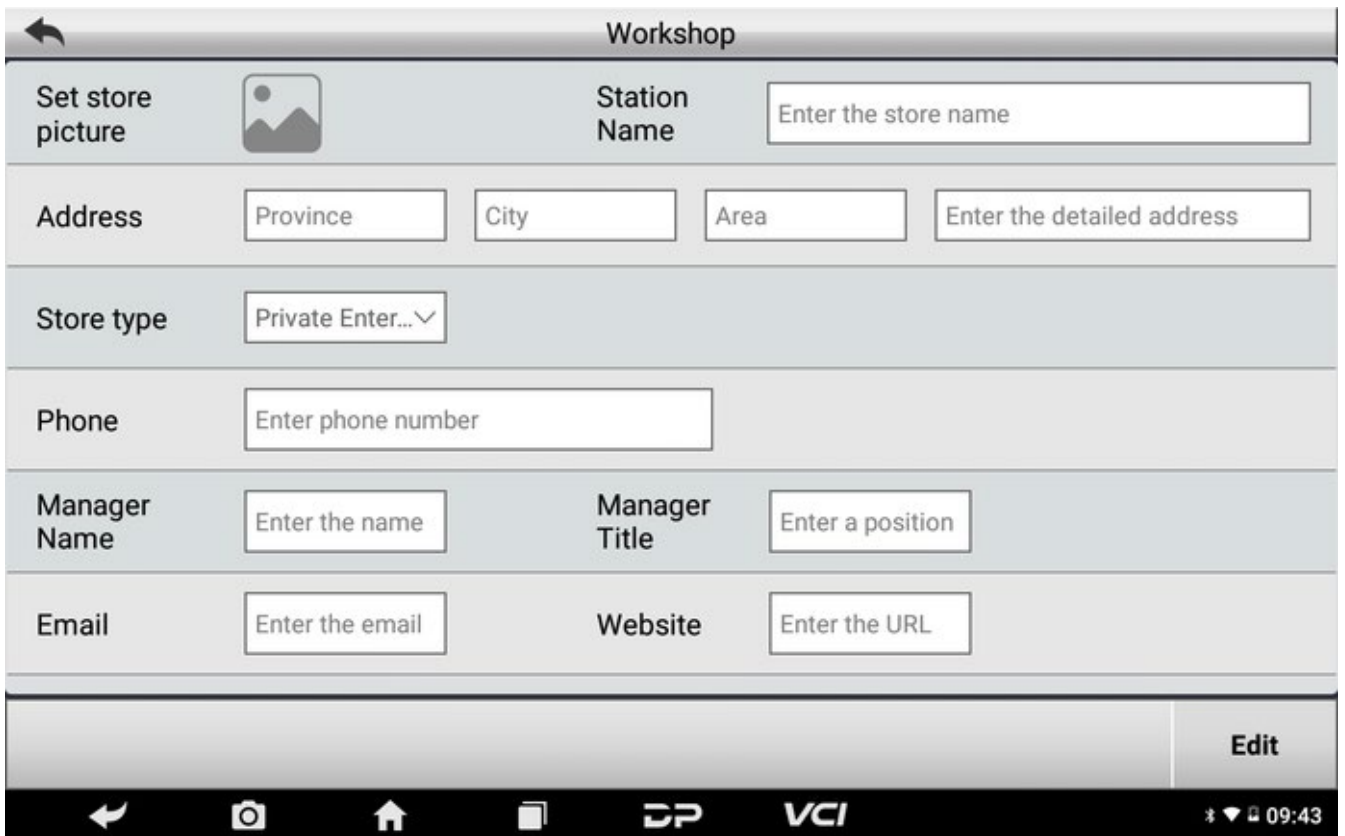

- **Uninstall vehicle models**

You can uninstall related vehicle models;

- **Workshop**

You can use it to set the information of shops;

- **Pictureviewer**

You can look through the related pictures conserved in this machine.

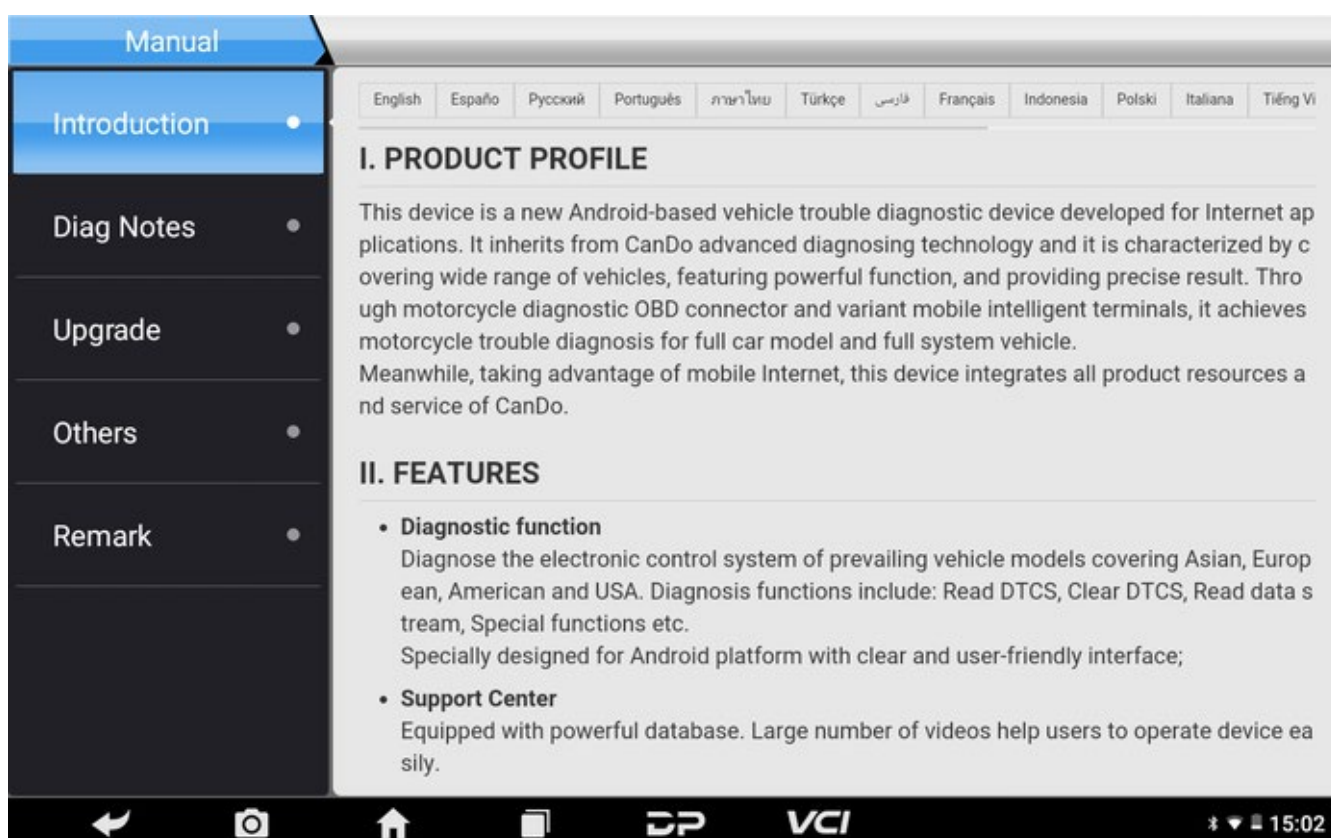

## VII. Support

We have powerful maintenance database and detailed product introduction information.

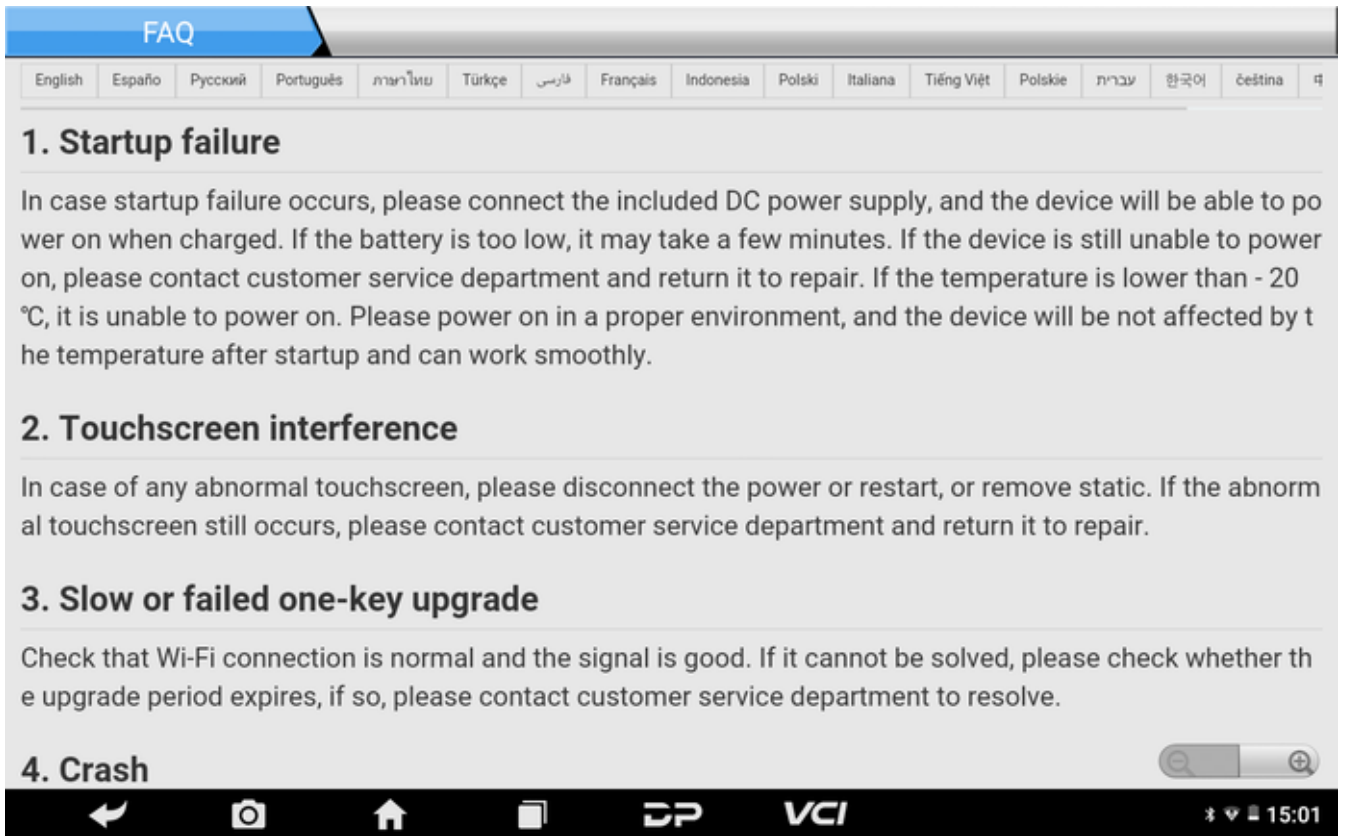

- **Video**  
Connect the diagnosis function operation videos of the actual vehicles;
- **Manual**  
Introduce the instruction manual of this product, and exhibit the basic information of the equipment, diagnosis instructions, upgrades, other applications and additional explanations of the company's products in the device.

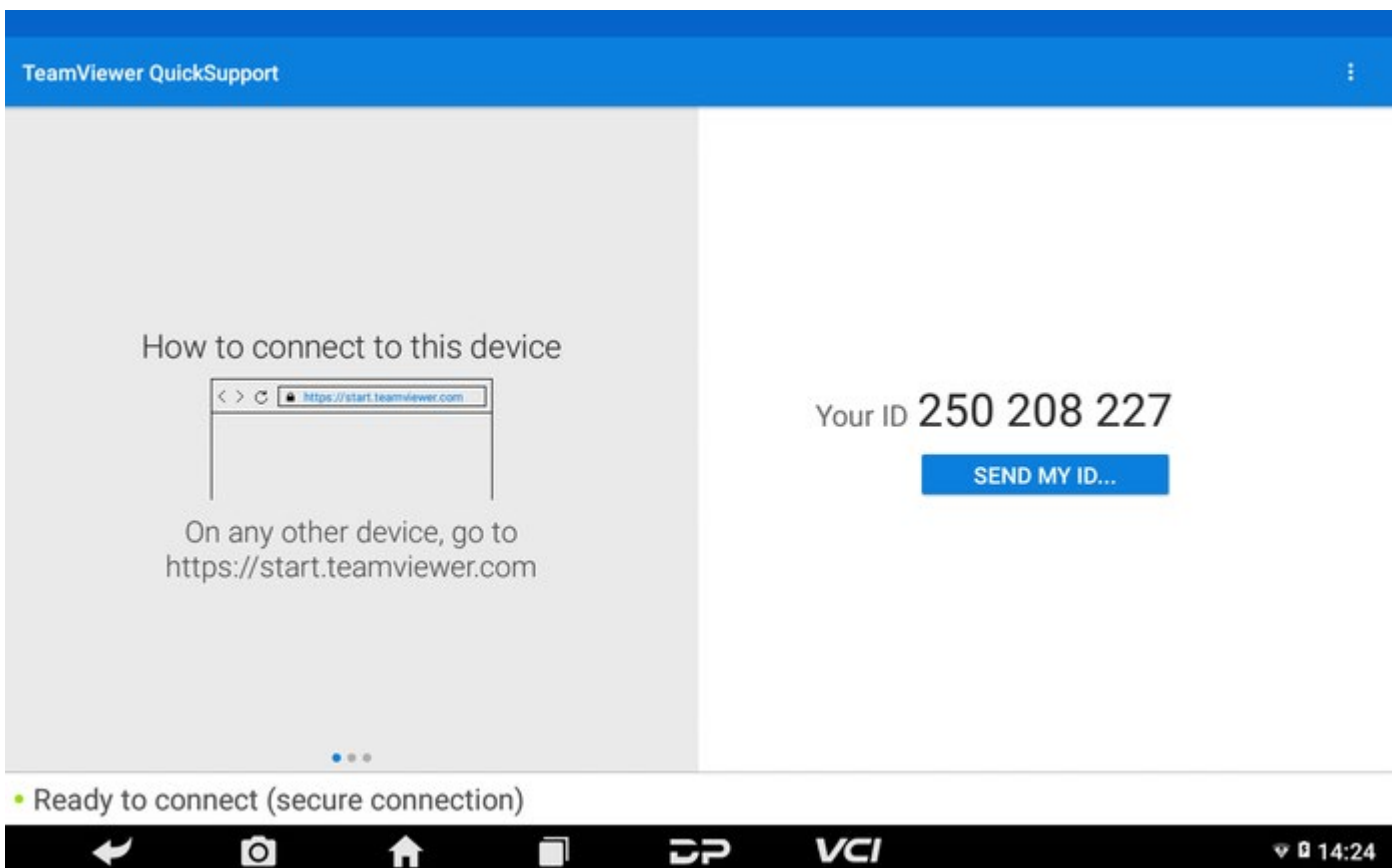

- **FAQ**

Summarize some common problems encountered in the use of the product.

## VIII. REMOTE ASSISTANCE

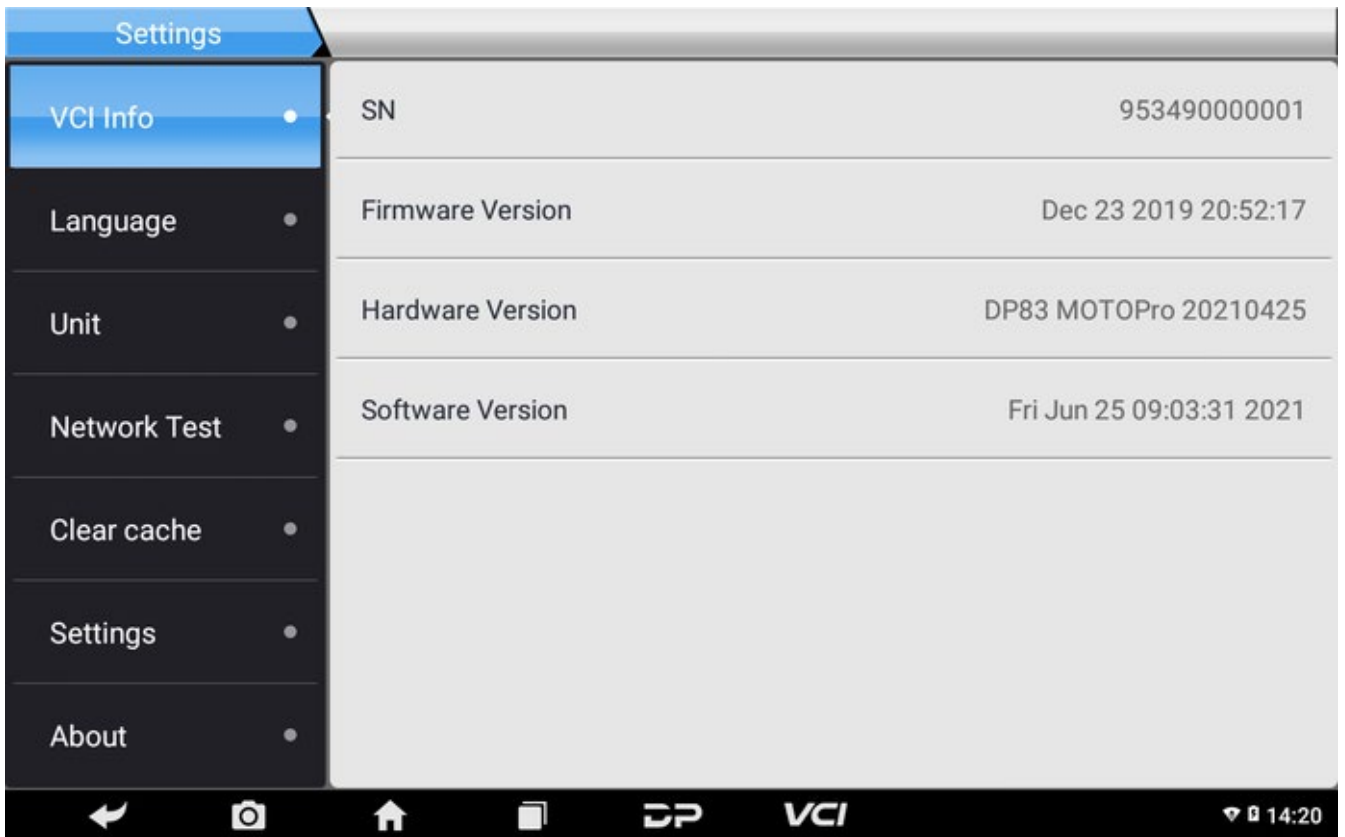

This application can realize remote hosting operation via the Third Party's software: "Quick Support" or "AnyDesk".

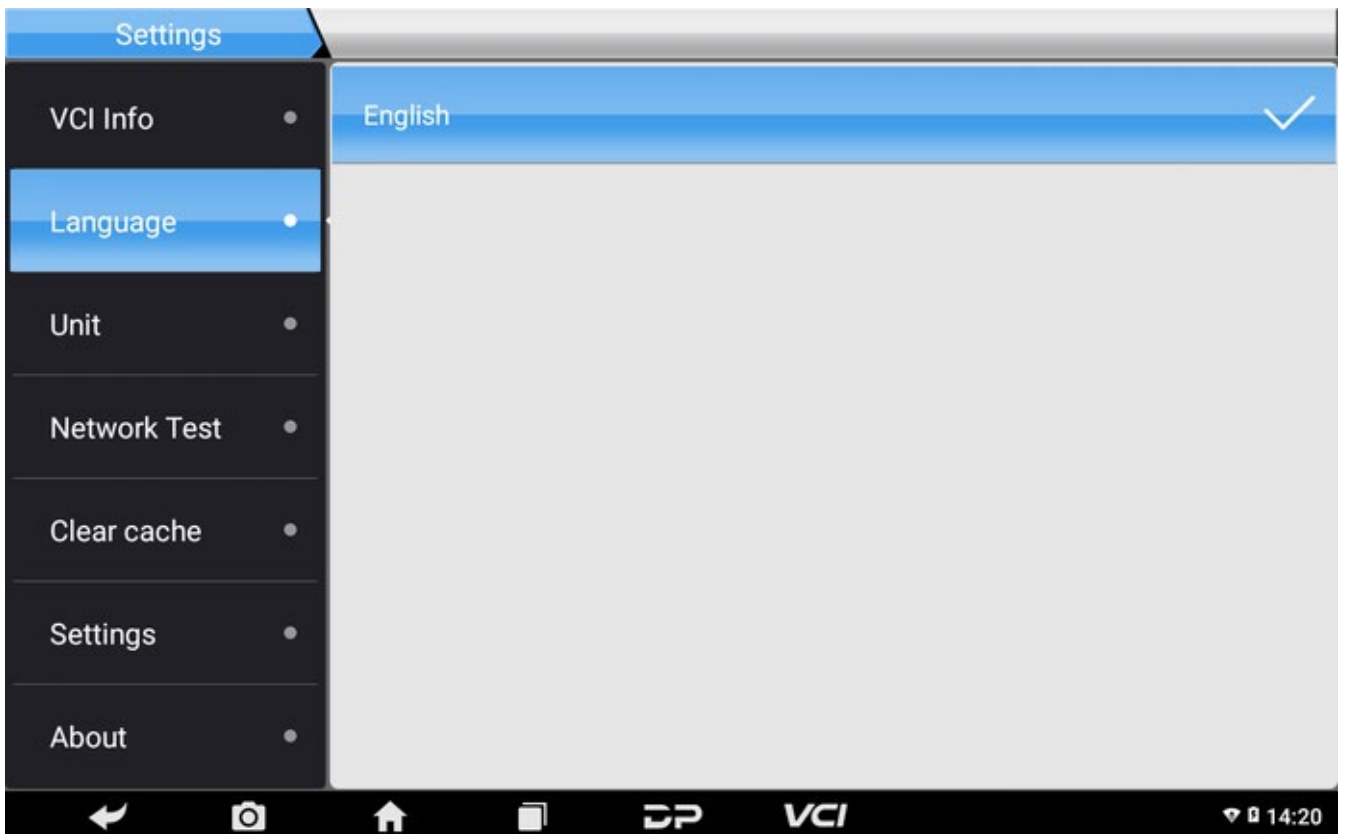

## IX.SETTINGS

It includes VCI Info, Language, Unit, Network Test, Clear cache, Settings and About etc.

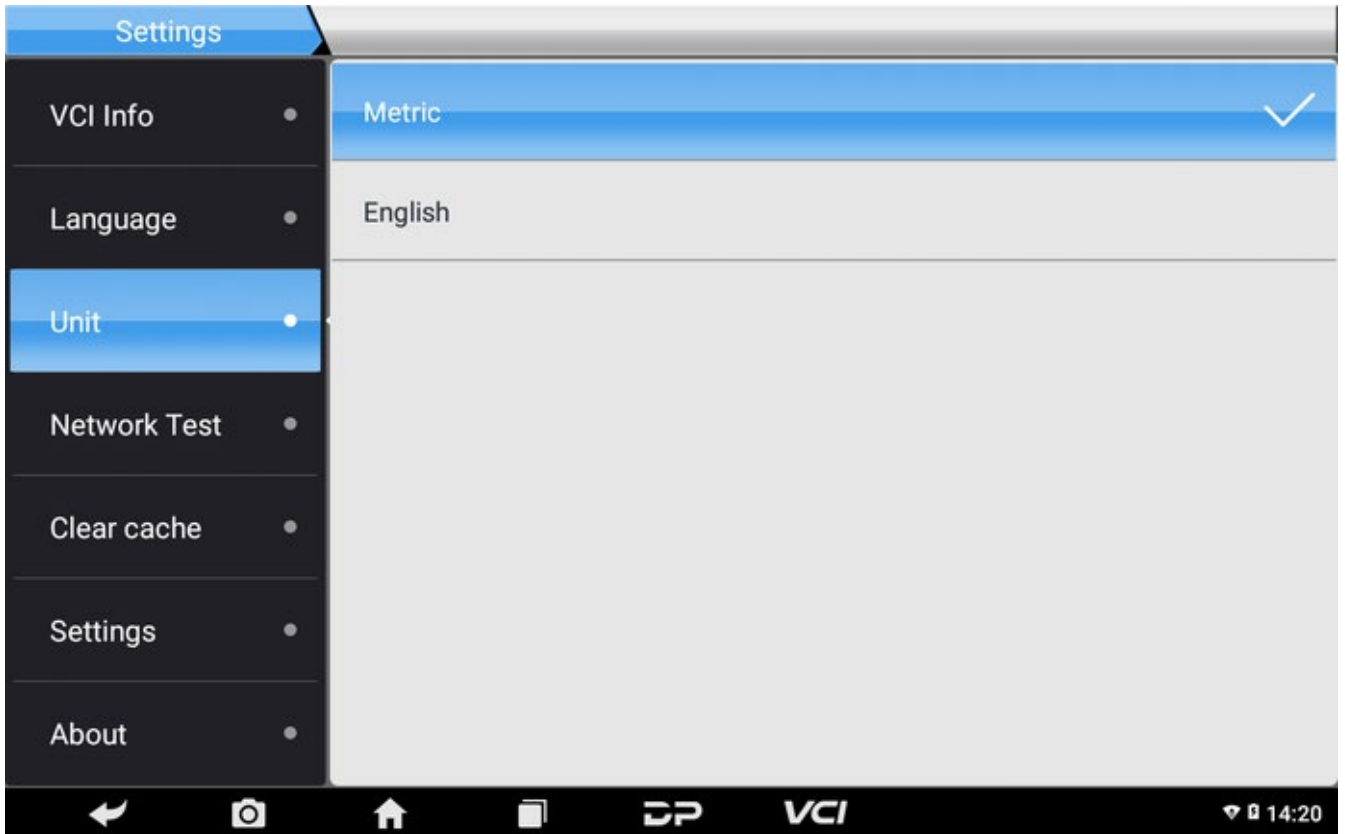

- VCI Info

- Language

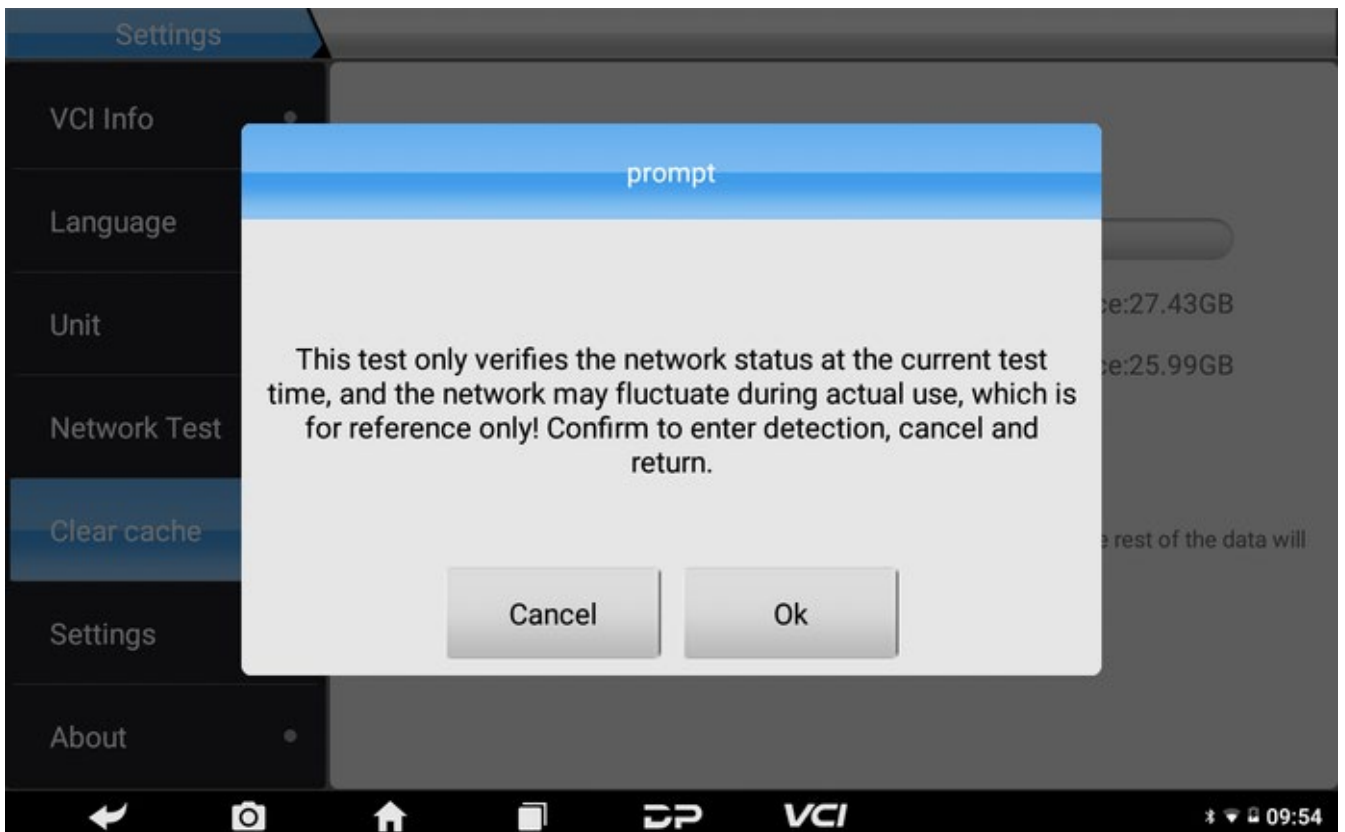

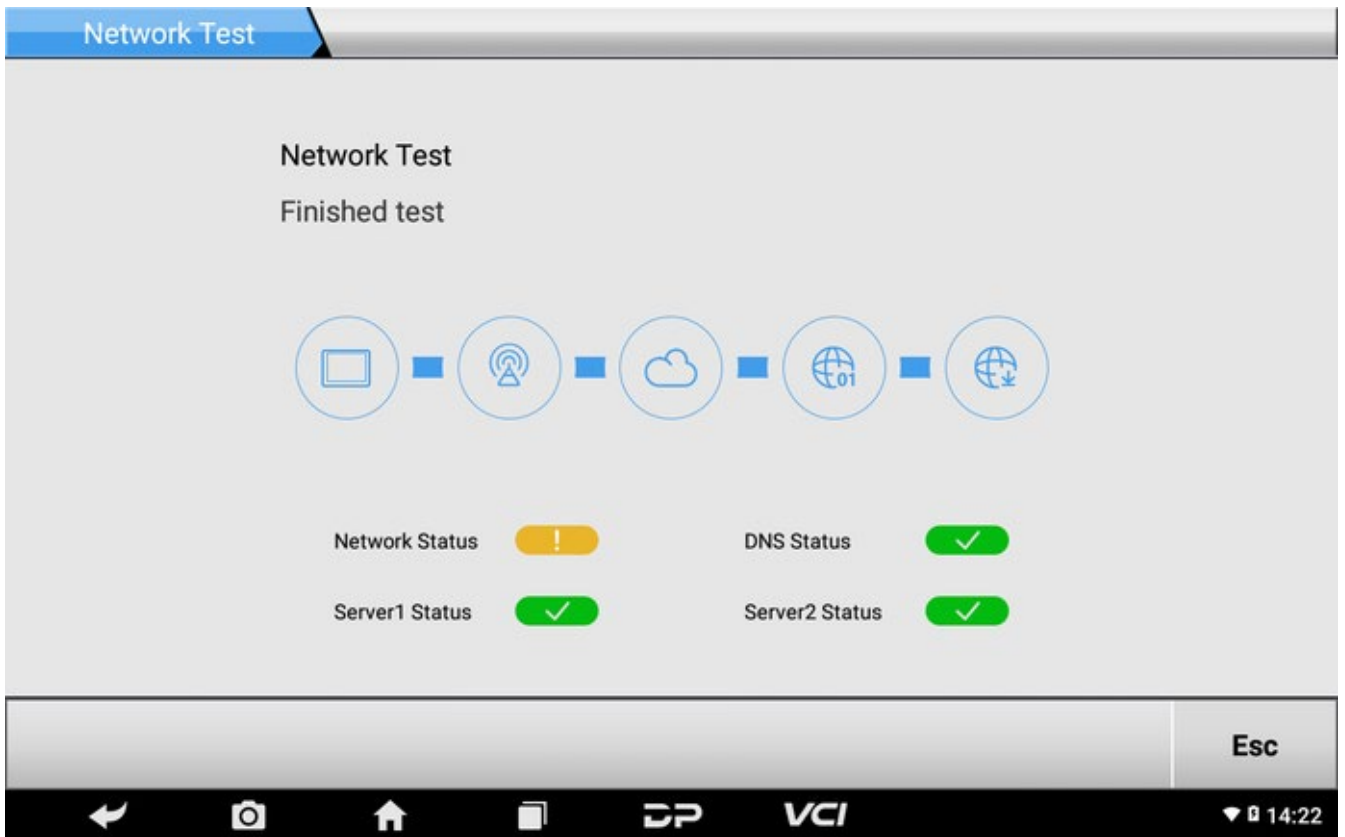

- **Unit**

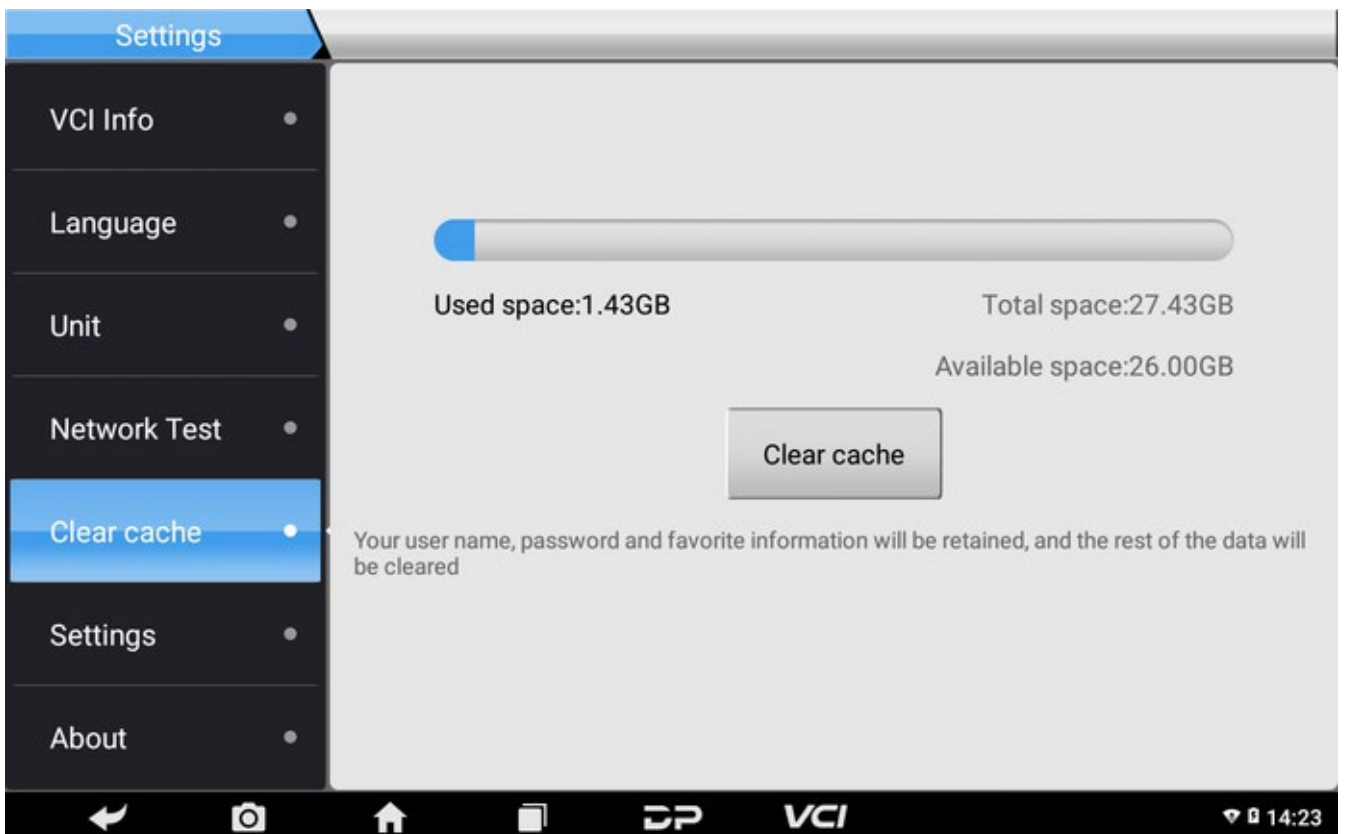

- **Network test**

The network test function is convenient for network connection failure and other phenomena during the use process. The test logs are submitted and engineers can analyze the network status of the machine through the test logs.

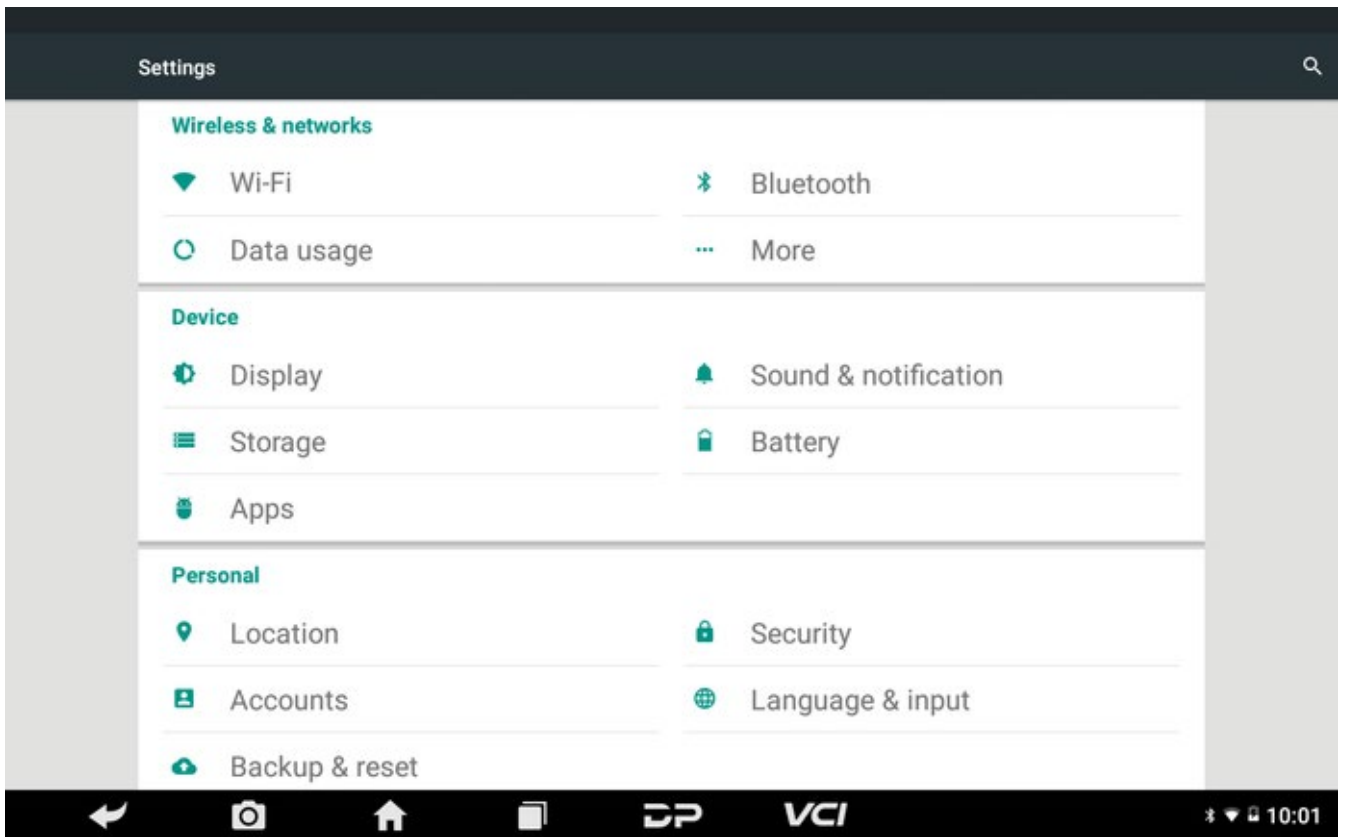

- Clear cache

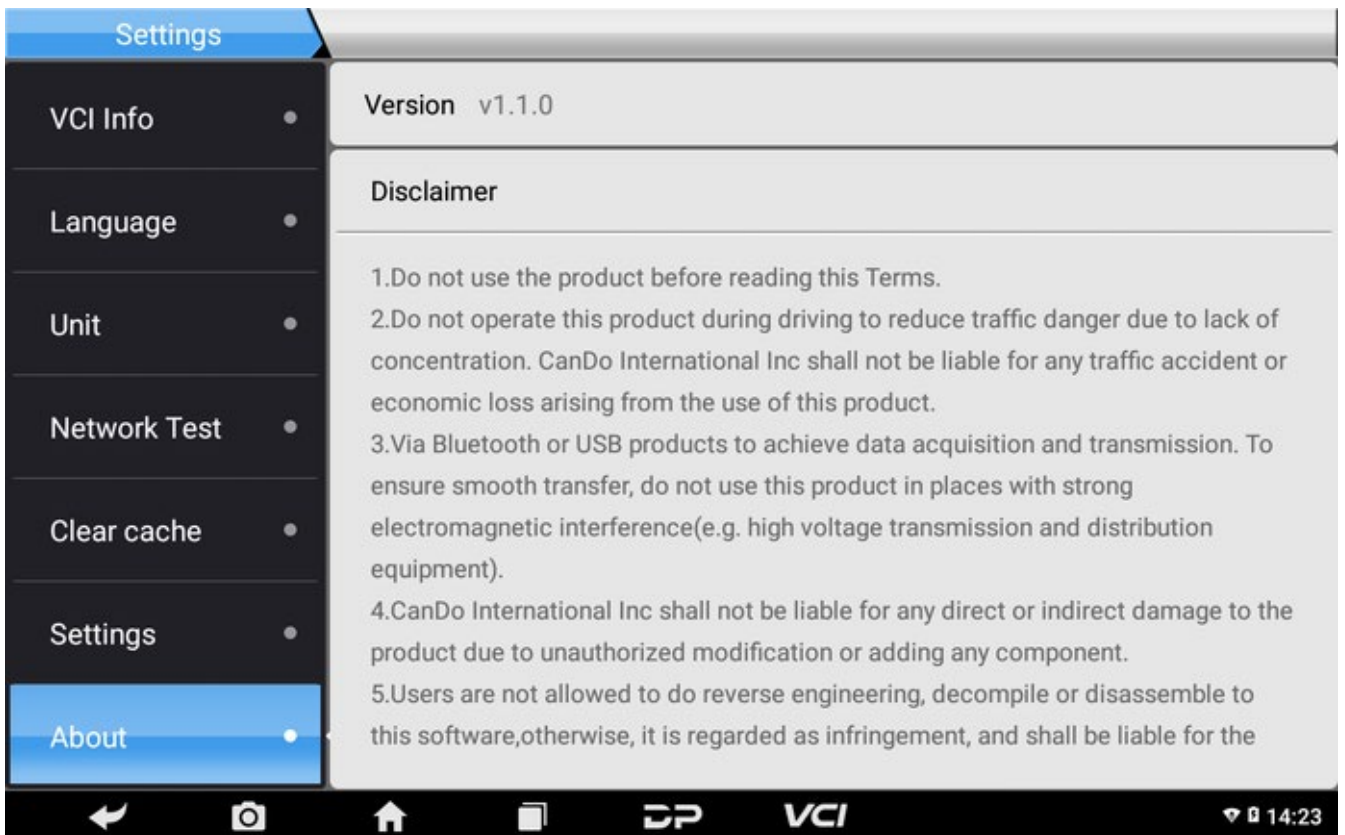

- Settings

- **About**

Display software version updates and product announcements.

## 1. Startup failure

---

In case startup failure occurs, please connect the included DC power supply, and the device will be able to power on when charged. If the battery is too low, it may take a few minutes. If the device is still unable to power on, please contact customer service department and return it to repair. If the temperature is lower than  $-20^{\circ}\text{C}$ , it is unable to power on. Please power on in a proper environment, and the device will be not affected by the temperature after startup and can work smoothly.

## 2. Touchscreen interference

---

In case of any abnormal touchscreen, please disconnect the power or restart, or remove static. If the abnormal touchscreen still occurs, please contact customer service department and return it to repair.

## 3. Slow or failed one-key upgrade

---

Check that Wi-Fi connection is normal and the signal is good. If it cannot be solved, please check whether the upgrade period expires, if so, please contact customer service department to resolve.

## 4. Crash

---

If any crash occurs, please long press power button for more than five seconds to power off and then restart.

## 5. Test failure

---

Solution: exclude software problems ----- re-upgrade the latest software ---- unable to solve ---- offer feedback ---- exclude motorcycle problems ---- motorcycle without any problem ---- (if permitted) exclude main wire problems ---- replace the same type of main wire ---- confirm the device problem and send it back to repair (along with the main wire)

## 6. Unable to charge

---

Check that charger has voltage output with 12 V. In case of no voltage or abnormal voltage, please replace the charger; if it still doesn't work after replacement, please contact customer service department to repair (along with the charger).

## 7. Software upgrade

---

Solution: DP interface----Personal center registration----Login account----Enter UPGRADE app---- Tick the softwares needed upgrade----Tick batch upgrade (Detailed steps: Support app-Product instruction-Diagnosis instruction and upgrade).

## 8. Software delete

---

Solution 1: DP----Data management----Uninstall vehicle models----Tick the vehicle models needed uninstall---Click delete mark in the upper right corner (Details: See uninstall vehicle models the sixth part of product instruction/diagnosis instruction). Solution 2: Enter DP interface, click vehicle logo, select software version and long press it until appear a prompt, finally select delete.

## 9. System language switch

---

Select the interface multifunction icon to enter, enter "Setting", enter "Language and input", click one time "Language" and then choose the language you need.
