ISUZU D-MAX 1.9D REAR CRANKSHAFT

OIL SEAL TOOL

- When fitting rear crankshaft seals, it is important that the seal is installed squarely and without damage, as it is not possible to confirm whether it will leak until the transmission is fully refitted and the engine has been run.
- **Applications:** Isuzu D-Max II 1.9 Ddi (2017 - 2022), D-Max III (2019 - 2026) & Grafter (from 2017).
- Engine: RZ4E 1.9 Diesel.
- **OEM equiv:** SST-5-8840-3225-0
- **Seals OEM equiv:** 8-98259-276-0
