

## ET6610 M Series Diagnostic Leak Detector

The ET6610 and its accessories are designed for detecting leaks in both Engine and Coolant systems (Not Brakes).

- Compact portable design. (Dimensions 130x85x185mm)
- Instant smoke generation, no warm-up required.
- Smart 5 minutes working cycle, enough for diagnosis on most vehicles. Can be cancelled at anytime or trigger another cycle.
- Over-heat protection with LED indicator.
- Inbuilt air compressor that creates output pressure up to **11.5Psi and 5LPM flow rate**.
- Patented smoke generation solution generates healthy, safe, harmless and dense smoke.
- Patented intake bladder (inflatable rubber is replaceable with just a screwdriver).
- Detachable smoke hose and power cord.
- Entry level low cost choice without compromise on function.

### Specifications
