## **EGR Valve Disassembly Tool**

### **( Hyundai / Kia )**

Hyundai	
Tucson / ix35	2009~
Santa Fe / Maxcruz	2009~
Kia	
Sportage (R)	2010~
Sorento (R)	2009~
Carnival	2010~

- **Used to disassemble the exhaust gas recirculation ( EGR ) valve without damaging the parts.**
- **Suitable for Hyundai / Kia 2.0L or 2.2L diesel R-engine.**

- Over time, carbon build up will occur and can interfere with the operation of the EGR valve flap.
- The EGR valve system faults can cause various problems, such as :  
Loss of power / Excessive smoke / Fluttering on acceleration  
Missfire / EGR flap position sensor faults / Poor fuel consumption
