

Diesel Injector Puller (Ford Transit)

ET8912

M17 x 0.75

The removal of jammed **two-piece injector** can be carried out without having to de-install the cylinder head.

- De-install the injector top part with injector removal socket.
- (To do so, the electrical connection must be removed.)
- Screw pull spindle into the injector bottom part.
- Slide support sleeve over pull spindle and screw on shoulder nut.
- Remove the injector by turning shoulder nut.
