## FUEL SYSTEM PRIMING PUMP

- Used on pressurizes the fuel system after service. Required to bleed air from the system and provide correct fuel pressure.
- The chrome tank uses pressurized diesel fuel to bleed the fuel system on the S60, MBE 900, MBE 4000, DD13 and DD15.
- Attaches to the system via a "compu-check" quick connect fitting.
- Applications: MBE 900/4000, DD13/DD15
- Alternative to J-47912
