

# Diesel emissions testing

**Particulate filter: system fault.  
See Owner's Manual**

## KANE-DPFTEST

Diesel particulate filter efficiency tester

- Easily test DPF efficiency at idle
- Measures the mass of particulates that have passed through the DPF
- Test a vehicle in less than a minute
- Store all test data
- Single user operation
- PM measurement uses light scattering principle
- Particulate size range 0.30µm to >10µm

1  Power on / off	2  Amber flash = warm up	 <b>KANE</b> KANE-DPFTEST
3  Amber on = ready	4  Press  to start test	
5  Good	 Marginal	

View test result as Good - Marginal - Poor

# KANE-AUTO600

## Portable Diesel Smokemeter

- Unique battery & mains powered smokemeter designed to meet official test standards
- Extracts vehicle exhaust into a smoke sample chamber with a near monochromatic visible light source (NMVLS)
- NMVLS obscuration allows accurate measurement of vehicle smoke density
- Smoke density displayed in real time on wireless handset
- Ideal for:
  - Car & Light Commercial Workshops
  - PSV Workshops
  - Fleet Operators
  - Pre-Compliance Testing

# KANE-EGA1NO

## Rechargeable Exhaust Gas NOx Analyser

- Test engine NO & NOx emissions
- Measures NO 0-600ppm & calculates NOx (NO+5%)
- Validate true NOx levels at the tailpipe
- Prevent unnecessary expensive repairs when diagnosing Diesel NOx sensor issues
- **KANE LINK™** enabled - connect to optional 'LINK' enabled devices
- Compact, quick & easy to use with large display

KANE products are backed by KANE CARE our promise to never let you down or your money back
