

YOU CAN FIX IT, WE CAN HELP!

CARDAQ3 PLUS

Your Complete R2R J2534 Solution!

Drew Technologies continues its tradition of providing the most validated J2534 devices on the market.

The **CarDAQ-Plus 3**® is the only pass-thru that offers the following features in a single device:

- **CAN FD:** Supports Flexible Data Rate CAN, (being introduced in the near future).
- **J2534 v05.00 API:** The newest version of J2534 to give you the latest in pass-thru technology.
- **4 CAN Channels:** Going beyond the 3 required by select Chrysler/FCA models, **CarDAQ-Plus 3**® also provides a 4th to meet the needs of future OEM applications.
- **DoIP:** Automotive Ethernet for advanced vehicle communications.

Complete OE Application Compatibility, including:

- Right-to-Repair (R2R)
- Emissions-related programming for all makes/models
- Full pre-R2R diagnostics and programming for numerous OEMs
- Vehicle security and key functions available for many makes
