### J2534 PASS THROUGH PROGRAMMING

#### CARDAQ-PLUS-3 KIT AUSTRALIAN SUPPORT

The CarDaq Plus 3 is the next generation Drew Tech device fully supporting J2534-1 / J2534-2, plus CAN FD, 4 CAN channels, v05.00 API and DOIP.

This device allows you to access OEM subscriptions, including Holden, Isuzu, Hyundai / Kia. (Available at extra cost, direct from the OEM).

- » Access Drew Tech's J2534 toolbox
- » Australian based technical support

ETCP3-AU

### ACTUATIONS, ADAPTATIONS AND CODING

GT90PLUS-AU allows you to use the scan tool temporarily activate or control a vehicle system or component. Provided that a module can be re-coded, it gives you the ability to 'flash' a control unit with new program data.

**Introducing the NEW GT90 MAX**  
An all new ergonomic menu system, lightning fast scanning speeds, over 1,000 new tests and functions and so much more...

AND MANY MORE...

## About Us

Foxwell is a leading global manufacturer of professional automotive diagnostic products.

Combining industry knowledge, manufacturing expertise, and technological innovation to offer an extensive range of diagnostic products that include OBDII code readers, service tools, and workshop scan tools.

Foxwell invests heavily in research & development to provide industry-leading

vehicle coverage and be first to market with new products & innovations. The result is intuitive technology that is simpler and smarter, making it easier to diagnose and service vehicles for car owners to professional technicians alike. And a reputation for being extremely responsive in delivering regular scan tool updates.

For the Australian market, we offer extensive scan tool coverage for all

vehicles in our car park, with several manufactures having 2021 model coverage. We also offer extensive technical support to our Australian customer base with Australian based technical engineering support. Australian Foxwell products are backed by a local hardware warranty and technical support (2 years free updates for the workshop scan tool).
