

CT-610KB PROFESSIONAL BUTANE TORCH

With 3 Interchangeable Nozzles

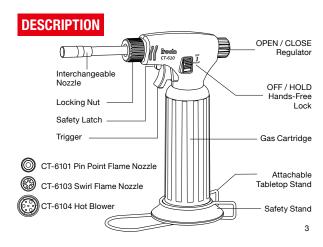

READ INSTRUCTIONS AND WARNINGS BEFORE USE

IMPORTANT SAFETY INSTRUCTIONS

Warnings:

- · Read instructions before use.
- DO NOT refill, ignite, or use near open flame, heater, furnace, or combustible materials.
- · KEEP AWAY FROM CHILDREN.
- · Only use high-quality butane gas.
- Be aware that the **Flame Nozzle** of the torch can get extremely hot during use.
- Do not touch the nozzle during use, or before sufficient time has passed for cooling.
- · Always be sure the unit is cool before storing.
- · Store properly when not in use.
- · Keep in a dry place, out of the reach of children.
- DO NOT expose to heat above 120°F (50°C) and avoid prolonged exposure to the sun.
- If your CT-610 malfunctions do not try to repair. Contact your dealer or online support for help.

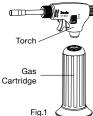

HOW TO USE THE CT-610

CONNECTING GAS CARTRIDGE TO TORCH

- Connect and disconnect the Torch Head to the Gas Cartridge
 while outdoors or in a well-ventilated area.
- 1. Ensure that the **OPEN/CLOSE Regulator** is turned off (turned fully clockwise).
- Place the torch head valve on top of the Gas Cartridge valve. (Fig. 1)
- Gently screw the Gas Cartridge into the Torch Head. Be careful not to crossthread the Torch to the Cartridge.

REFILLING

- · Use only high-quality butane gas.
- Refill in a well-ventilated area away from any ignition source and other people.
- 1. Hold butane canister upside down when filling (Fig. 2)
- 2. Firmly press nozzle of butane fuel into the **Filling Valve.**
- Stop filling when gas overflows. (Gas overflow during refilling is normal and does not indicate a leak.)
- 4. Wait for a few minutes before use for gas to stabilize.

Fig.2

IGNITION

(Fig. 3)

- 1. Turn the **OPEN/CLOSE Regulator** counterclockwise approx. 1/2 turn to start the gas flow.
- 2. Press the Safety Latch and Trigger together to ignite the torch.
- 3. For continuous flame, slide the **Hands-free Lock** to the HOLD position. Then release the **Safety Latch** and **Trigger**.
- To extinguish the flame, slide the Hand-frees Lock to OFF
 position and turn the Control Regulator clockwise to the closed
 position to turn off the gas.
- You can use the Attachable Tabletop Stand for better stability and multiple angles use during operation. (Fig. 4)

6

HOW TO CHANGE NOZZLE

- 1. Be sure the nozzle is cool before removal.
- 2. Turn the **Locking Nut** counterclockwise to unscrew and remove the **Interchangeable Nozzle**.
- 3. Install the desired nozzle into the body by aligning the **Protrusion** on the **Nozzle** with the **Notch** in the **Torch Body** (Fig. 5)
- 4. Carefully push the nozzle into the body (Fig. 6).
- Gently screw the Locking Nut on the threads. Be careful not to overtighten as it could damage the nozzle assembly and threads in the body.

TROUBLE SHOOTING

• To reduce the risk of personal injury, property damage, or damage to your **CT-610**, do not attempt to repair the unit body.

PROBLEM	PROBABLE CAUSE	HOW TO CORRECT
		Slide the Hands-Free Lock to OFF position
Does not Ignite/no flame	Empty Gas cartridge	Refill with butane fuel

SPECIAL WARNING

- This product, when used for soldering and similar applications, produces chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.
- Department of Transportation Hazardous Materials Regulations forbid the carriage of butane or other flammable gas products on passenger aircraft.
 Do not pack this item or any other flammable gas item, in any checked or carry-on baggage.
