

Screw Cam Clamp (Double Eye Type) PAT.

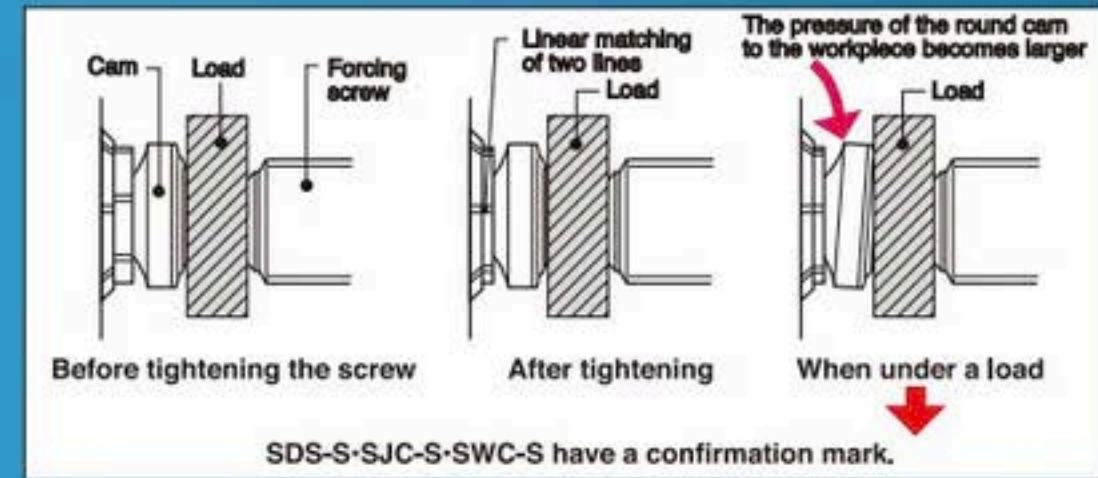

New Type

This screw clamp can be used for a variety of operations such as lifting up and down, lateral (horizontal) pulling and turning over. Adequacy of tightening can be visually confirmed by secure and safety structure.

FEATURES

- This clamp is equipped with a screw and a circular cam (special spring-loaded) which provide sure clamping force on a load even when vibrations occur during operation.
- Cam holder and collar respectively has phosphorescent (glow-in-the dark) paint for easy recognition of adequate tightening.

※ Accessory included: 17x21 Double Size Ratchet Wrench (Short Type)

Capacity and dimensions

Item No.	Rated capacity (ton)	Clamp range	(mm)											
			L	L2	L3	H	H1	H2	H3	ϕ D1	T1	T2	S	N.W. (kg)
SWC0.5S	0.5	0~25	130	88	57.5	151.5	63	30	43.5	22	50	14	17	1.9
SWC1S	1	0~40	164	120	72.5	191.5	84	40	51.5	26	61	16	21	3.5
SWC2S	2	0~40	184	129	79	224.0	94	40	62	32	77	18	21	5.8

⚠ Always lift a load at 2 or more points for safety.
